Art. 5 - ADMISSION BOARD

Details about the Admission Board members are available on the [University website](#) (select the PhD programme → “More Information” and then click on “Admission Board tab”).

In case of scholarships financed by external institutions or reserved positions, the Admission Board may include an additional Expert Member (i.e. from the external institution) with the purpose of assessing the applicant suitability for the interested position. Any change to the Admission Boards will be communicated on [University website](#), before the date of the oral examination.

Art. 6 - FINAL RANKING LIST

After the publication of the results of the last admission examination, the final ranking list will be published through a Rector Decree on the [University website](#) (select the PhD programme → "More Information" and check the "Notices" section at the bottom of the page).

The final ranking list contains the applicants who passed all the admission examinations.

According to their place in the ranking list, successful applicants will be awarded one of the positions offered by this Call and will be admitted to the PhD programme. Please note that specific rules may apply to topic-specific and reserved positions, as stated below.

All applicants who apply for a PhD programme can participate to the selection for **standard positions** (i.e. “tema libero”) if present.

In case two or more applicants have the same final score, if the position is covered by a scholarship or other funding, the assessment of applicants’ economic situation will be the criterion to choose the successful one. In case of positions without scholarship, the youngest applicant precedes in the ranking list.

The **topic-specific positions** (if available) bind the applicants to carry out their doctoral research on a specific topic that is indicated in the PhD Programme Table. The **reserved positions** (e.g. Executive PhD, Apprenticeship PhD, if available) are open to applicants who fulfil specific requirements in addition to the general assessment carried out by the Admission Board.

For PhD Programmes articulated in Curricula and where the available positions are specifically linked to one of the Curricula, the PhD positions are awarded according to the applicant’s place in the general ranking list and to the specific Curriculum chosen during the application procedure. If an applicant fails to indicate a preferred Curriculum complying with the rules laid down in the PhD Programme Table, the Admission Board shall assign them a Curriculum, considering the applicant’s research experiences and interests and the information obtained from the submitted documents.

If according to the specific PhD Programme Table, the Curriculum has to be mandatorily chosen by the applicant, failing to indicate a preferred Curriculum will result in the applicant’s exclusion from the selection procedure.

Reserved and topic-specific positions are not assigned according to the applicant’s place in the general ranking list only, because they require a specific evaluation by the Admission Board (topic-specific positions) or the assessment of specific requirements (reserved positions). Therefore, the positions are awarded following the ranking order of the applicants who are eligible and fulfil the specific requirements regarding each position.

If a successful applicant withdraws, with or without notice, from a position, or only from a funding opportunity, the following applicant in the ranking list, who is also eligible for the specific position, will be contacted. Please note that, in case of withdrawal only from the funding opportunity, the maximum number of applicants who can be contacted for replacement is set by the relevant Department.

In order to fill all the openings, the replacement procedure will continue until the day before the PhD programme start date.
