New regulations concerning the validity and use of certificates in the Public Administration came into force on 1 January 2012.

In compliance with the new regulation, the Public Administration cannot accept or request certificates concerning information which is already in the possession of the Italian public administration; only self-certifications will be accepted.

## **Article 1 (General Information)**

The University of Bologna, Bologna campus, pursuant to Decree no. 270 of 22 October 2004, issued by the Ministry of Education, Universities and Research, shall for the academic year 2019-2020 be running the Summer School in “Innovation and Technology Management in Medical and Pharmaceutical Biotechnology”, lasting 8 - 12 July 2019, in the Italian/English language, which leads to the award of 5 university learning credits (CFU).

The programme is run in collaboration with FAM.

Learning outcomes: Training biotech students and graduates on basic bio-business concepts, such as product development, intellectual property rights, financing models, has become a prerequisite to their success in the biotechnology business world. However, in the traditional academic environment most of these subjects are not yet taken into account. The summer school aims to address this gap by providing students with useful bio-business competencies that will make them more competitive, and therefore more employable, at European and international level. Representatives from the biotech industry will share their experience and show the students a realistic and reliable picture of today's job opportunities in biotech companies. Specific group activities will also foster the interactions and connections between the participants, with a view to creating a lasting network between students, universities and industry.

Further information on the objectives, professional context and teaching programme can be found in the Programme presentation sheet published on the website:

<http://www.unibo.it/Portale/Offerta+formativa/Summer+and+winter+school/default.htm>

Attendance is compulsory. The minimum percentage of attendance is 80%.

Certification of the positive completion of the Programme and the issue of 5 CFU/ECTS is subject to:

- a) payment of all fee instalments within the established deadlines;
- b) achievement of a minimum attendance of 80%;
- c) passing the final examination. The final examination is deemed to be passed with a grade of at least 18 out of 30.

Any exams or progress tests carried out during the Programme, at the end of each module or course unit, shall not be recorded but they will be considered, by the examination board, as an element of evaluation for the final examination.

**Applications will be accepted until all places are filled.**

**Attention: before making the payment, in case of doubts about the admission requirements, contact the place of teaching (giovanna.cenacchi@unibo.it) because the fees paid cannot be refunded.**

The Programme will run with a minimum of 7 and a maximum of 30 enrolled students.

The programme will not run in the event of less than the minimum number students being admitted.

Within five working days from the closure of registrations, the place of teaching will notify students whether the programme will run or not, depending on the number of enrolments.

In the case of non-activation the university will request from all enrolled an **IBAN code linked to an account in the name of the student enrolled** in order to activate the process of reimbursement of the fees paid.
