

Giuseppe Bellussi

Giuseppe Bellussi is the Senior Vice President R&D in the refining & marketing division of eni Company. He holds a University degree in Chemistry cum-laude from University of Parma-I. He started his professional activity in 1980 in Duco S.p.A., a subsidiary company of Montedison and in July 1981 he moved to eni. Since then he has been involved in research activities related mainly with catalytic process technologies for chemistry and refinery. Since August 2006 he is the responsible of R&D in the refining & marketing division.

Dr. Bellussi is the co-author of more than 90 patents and 100 publications on internationally recognized journals. For his achievements in science and technology he has been recognized with several international awards among which the 1992 Don Breck Award (Montreal), the 2003 Johnson-Matthey EFCATS International Award (Innsbruck), the 2008 Piero Pino Gold medal from Italian Chemical Society (Genova), the 2008 International Zeolite Association Award (Beijing) and the 2013 Houdry Award from North American Catalysis Society (Louisville-Kentucky). Since 2010 he holds the position of the President of International Zeolite Association.
