Research interests

My research has so far focused on two interlinked areas.

Quality of scientific publications and evaluation of research. I am looking at how scientific publications have the potential to stimulate, but also to obstruct, the advancement of knowledge. Focussing mostly on clinical research, my work in this area aims to contribute to the ongoing debate on research quality and transparency.

Academic scientists and university-industry links. I am also interested in how academics engage with external organisations. I have explored academics' preferences for high-status journals and for social-economic impact, as well as the impact of journal lists on the working practices of academics.

Please get in touch if you have relevant experience to share.

Teaching interests

I am currently teaching at postgraduate level across the [Innovation and Technology Management MSc](#), [Entrepreneurship and Management MSc](#) and [Entrepreneurship Management and Innovation online MSc](#).

I have also co-designed the [Introduction to Innovation in Healthcare MOOC](#), a four-week course from the University of Bath and the West of England AHSN.

Other responsibilities

I am the Director of Studies for the [Innovation and Technology Management MSc](#).

Willing to supervise doctoral students

I welcome enquiries from potential PhD students.

Expertise related to UN Sustainable Development Goals

In 2015, UN member states agreed to 17 global [Sustainable Development Goals \(SDGs\)](#) to end poverty, protect the planet and ensure prosperity for all. This person's work contributes towards the following SDG(s):

- Education/Academic qualification
Innovation and Entrepreneurship, Doctor of Philosophy, Imperial College London
External positions
Visiting Researcher, Imperial College London
1 Jun 2019 → ...

Fingerprint
