Previous experience

I worked as a flight instructor at the Bologna aeroclub and for the JP Aviation flight school. At the same time, from 2002 I was hired as a handling services officer for four different companies at Bologna airport until 2015 as a ramp agent, weight and balance officer and airport security officer. For about two years I also worked in the private business handling service for general aviation, managing the entire flight from on-board catering, customs services, refueling and passenger management.
