

## CV

Hector Ramirez was born in Tomé, Chile, in 1981. He received the Eng. degree in electronic engineering and the M.Sc. degree in electrical engineering from the University of Concepción (UdeC) in 2006 and 2009, respectively. In 2012, he received the Ph.D. degree in automatic control from the University Claude Bernard Lyon 1 and the Ph.D. degree in electrical engineering from UdeC. In 2012, he joined the University of Bourgogne - Franche-Comté (UBFC) and the Department of Automatic Control and Micro Mechatronic Systems (AS2M) at the FEMTO-ST research institute as a postdoc, and in 2013 as an assistant professor. In 2019, he obtained the French HDR from UBFC. In 2019, he joined the Department of Electronic Engineering of the Technical University Federico Santa María (UTFSM) and the Advanced Center for Electrical and Electronic Engineering (AC3E) in Chile. He currently holds a position as associate professor at UTFSM and is the director and head of the research group on Control and Automation at AC3E. His research interests include port-Hamiltonian systems, modeling and control of multi-physical systems, and control of partial differential equations. He is a member of the IFAC technical committees on nonlinear control systems (TC 2.3) and distributed parameter systems (TC 2.6), and the IEEE CSS technical committee on distributed parameter systems (DPS).
