

PERSONAL INFORMATION Giulia Galluccio

PROFESSIONAL EXPERIENCE

- 1/1/2025 – to date **Director of CMCC ATEC – Advanced Training and Education Center**
Fondazione Centro Euro-Mediterraneo sui Cambiamenti Climatici, Milano
- 03/2021-12/2024 **Director of CMCC ISCD Division – Information System, Climate change and Decision Making**
Fondazione Centro Euro-Mediterraneo sui Cambiamenti Climatici, Milano
 Coordination and management of the CMCC ISCD Division Activities. Management of EU-funded projects/research on science-policy interface with a specific focus on socio-economic assessment of climate change adaptation policies and climate finance.
- 2007-02/2021 **Head of CMCC Fundraising Office**
Fondazione Centro Euro-Mediterraneo sui Cambiamenti Climatici, Milano
 Senior project manager. Coordination, management and supervision of the CMCC Fundraising activities.
- 2010-2021 **CMCC Research Divisions Coordinator**
Fondazione Centro Euro-Mediterraneo sui Cambiamenti Climatici, Milano
 Research Divisions Coordinator, Management and coordination of research Division fund raising activities / Management of EU-funded projects/research on international cooperation, climate-policy interface, climate policy assessment and climate finance.
- 2007-2010 **Researcher**
Fondazione Eni Enrico Mattei, Milano
 Research activities on "International carbon markets and the financing of climate policy."
- 2004-2007 **Manager Climate Change Services**
Det Norske Veritas Italia (DNV), Centro Colleoni, Agrate Brianza (MI), Italia
 Development and management of the Climate Change Service of DNV Italia (verification in the context of the European greenhouse gas emission trading scheme, EU-ETS, and validation of CDM / JI services)
- 2000-2004 **Senior Consultant Sustainability Services**
KPMG Italia, Via Pisani, 20129 Milano, Italia
 Consultancy activities on Corporate Social Sustainability and Climate Change
- 1998-2000 **Junior Researcher**
Fondazione Eni Enrico Mattei, Milano
 Research activity on environmental business management (company accounting and reporting)

EDUCATION

- March 2013 PhD in Science and Management of Climate Change

1997

The Doctorate School in Global Change Science and Policy (ChangeS), Università Ca' Foscari, Venezia, Italia

Title of the thesis: *The role of public-private partnerships (PPPs) in scaling up financial flows in the post-Kyoto Regime*

BA degree in Business Administration

Università Commerciale Luigi Bocconi, Milano, Italia

Title of the thesis: *Environmental disclosure in corporate financial reporting*

PERSONAL SKILLS

French	Mother Tongue	Mother Tongue	Mother Tongue	Mother Tongue	C2

Key Qualifications

- Experienced in Outreach and Stakeholder engagement and participatory processes developed involving specific stakeholders, citizens, policymakers, financial institutions or other target groups.
- Experienced in climate communication and web content management/development.
- Analysis of policy documents at the national and local levels.
- Analysis and screening of local, national, and international funding opportunities.
- Strong expertise in developing and managing new projects at the international level.
- Strong expertise in climate finance and project financing mechanisms.
- Development and drafting of the national/local Adaptation Plans and strategies to climate change.
- Ten years' experience in the climate change consultancy sector (as manager of Global Sustainability Services at KPMG) and in developing the newborn carbon markets (developer and manager of DNV Italian Climate Change Services).

Professional Skills

- Vice-Chair of the Joint Programming Initiative "Connecting Climate Knowledge for Europe" (JPI Climate), a pan-European intergovernmental initiative gathering European countries to coordinate climate research and fund new transnational research initiatives jointly.
- Member of JPI Climate's Action Group 6 "*Enabling societal transformation in the face of climate change*": an international working group on the integration of Social Sciences and Humanities (SSH) in climate change research agenda and responsible body for the management of SOLSTICE's Call for Proposals on themes such as social justice and participation, Sensemaking, Cultural Meaning and Risk Perceptions; Transformative finance and economy.
- Member of the Scientific Committee of Società Italiana per le Scienze del Clima (Italian Society for Climate Science).
- Director of High-Level Research School, Future Earth Research School (FERS) <https://www.fersschool.it>
- Italian contact point for the [LCS-R Net](#), the International Research Network for Low Carbon Societies.
- CDM validator.
- EU-ETS verifier.
- Q/E/S Management System Registered Auditor.
- Chartered Certified Accountant - Italian Accountancy Body (2003).

Communication Skills

- Excellent communication skills developed through international lectures, conferences and seminars and teaching for undergraduates and graduates.
- Ability to develop relationships by working in international research and consultancy groups and in interdisciplinary research networks.
- Networking skills developed through participation in international projects and networks.
- Member of the CMCC team supporting the Italian Ministry of Environment Pavilions at COP14 (Poland) till COP25 (Madrid). Contact point and coordinator of CMCC events held during UNFCCC COPs.

- Organizational & management Skills**
- Director of CMCC's Research Division, steering a research agenda and managing a medium-sized team of researchers.
 - Development and coordination of scientific courses and summer schools.
 - Head of the CMCC fundraising office, directly managing a small team of people.
 - Coordination and Management of large scale interdisciplinary international research projects.
 - Management and coordination of research proposals' preparation on the research topics of the CMCC research divisions.
 - Presentation of research project proposals, within the European programmes: Horizon Europe, Horizon 2020, FP7, EuropeAid, World Bank, Asian Development Bank, EU Interreg, MIUR, MATTM, ECMWF, Mercator and many others.
- Teaching Activities**
- [Scuola Nazionale dell' Amministrazione](#) (National Administration School): development, coordination and teaching activities of climate change-related courses since 2022.
 - 2009 – 2012 Teaching activities on environmental issues, climate change, carbon market, international agreements, at [Venice International University](#) and [ISTUD Business School](#).
 - 2005 – 2006 Adjunct Professor and Teaching Module Owner - Master's Degree Program in Environmental and Landscape Sciences and Cultures: Module Title: Marketing of Tourism and Territory a.y. 2004-2005 and a.y. 2005-2006.
 - 2017 – 2021 Teaching activities within the Italy-China cooperation project SICAB on: Climate Finance, EU-Italian climate adaptation and mitigation strategies and policies and Agreements EU Emission Trading Market

PROJECTS

Scientific-managerial **coordination** of the following CMCC projects:

10/2022-06/2024

EUCRA – The European Climate Risk Assessment

EEA – European Environment Agency

Total budget: 1.100.000,00 EUR (implemented 812.000 EUR)

Main scope: Carry out the European Climate Risk Assessment.

Role: Project Coordination and Management and involved as authors in several chapters of the EUCRA report.

09/2023-12/2026

CLIMATEFIT – Resilient CLIMATE Financing and Investment Taskforces

Horizon Europe

Total budget: 5.760.510,00 EUR

Main scope: Support EU territories in their just and transformational journey toward climate resilience by bridging the finance gap, through the development and testing of climate resilience investment strategies and plans.

Role: Coordinator of WP2 “Build capacities, project pipeline and resilient investment strategies”. Involvement in the design and testing of climate resilience investment strategies and plans.

06/2023-05/2026

VALORADA – Validated Local Risk Actionable Data for Adaptation

Horizon Europe

Total budget: 2.972.863,75 EUR

Main scope: To enable the integration of diverse datasets that enable merging local knowledge with climate and non-climate datasets by means of co-developed data-manipulation tools and climate data.

Role: Technical advice and support to the Molise region demonstrator in the co-design of climate-data services that grant “climate-value” to locally-sourced datasets in regions and communities.

01/2023-12/2026

SD-WISHEES – Supporting and Developing Widening Strategies to tackle Hydroclimatic Extreme Events: impacts and Sustainable solutions for cultural heritage

Horizon Europe

Total budget: 2.728.912,50 EUR

Main scope: To promote and support the collaboration between JPI Climate, Water JPI and national research and innovation funding members to address together the protection of cultural heritage in Europe and beyond in response to hydroclimatic extreme events in the context of climate change.

Role: Coordinator of WP6 ‘Supporting and Widening the Market, Regulatory and Societal Uptake of R&I results’ and substantially contributes to WP2 ‘Strategic planning of activities.

12/2021-12/2022

IFAD - Lessons from the field: strategies for effective implementation of climate focused projects and enhancement of nutrition benefits

International Fund for Agricultural Development

Total budget: 165.750,00 USD

Main scope: Analysis of best practices and lesson learnt on the implementation of IFAD-funded projects in Latin America to inform future investment portfolios on the food-climate change-nutrition nexus.

Role: project partner involved in all activities, mainly providing technical expertise on climate change and nutrition nexus.

06/2022-05/2026

NEVERMORE – New Enabling Visions and tools for End-useRs and stakeholders thanks to a common MOdeling fRamework towards a climatE neutral and resilient society

Horizon Europe

Total budget: 6.687.423,00 EUR

Main scope: To develop an integrated common assessment framework tailored to the needs of different stakeholders and end-users for evaluating impacts, risks and interactions of climate change across sectors and adaptation and mitigation strategies towards a climate neutral and resilience society.

Role: Task Coordinator – Socio economic assessment of climate adaptation measures.

01/2022 – 12/2026

ETC/CA European Topic Centre on Climate Change adaptation and LULUCF

EEA – European Environment Agency

Total budget: Defined on a yearly basis.

Main scope: To assist the EEA in supporting the implementation and developments of EU legislation and policy by monitoring and assessing climate change impacts, hazards and adaptation and LULUCF, contributing to the harmonisation, quality assessment and sharing of data and/or information, the main supported policy process being the EU Strategy on Adaptation to Climate Change, in the framework of the EU Green Deal.

Role: Project coordination and management; involved as expert in several tasks.

06/2022-05/2026	<p>MAGICA - Maximising the impact and synergy of European climate change research and innovation</p> <p>Horizon Europe</p> <p><i>Total budget:</i> 4.827.579,00 EUR</p> <p><i>Main scope:</i> to accelerate the development, provision and exchange of knowledge from research and innovation to inform and support policy-making and climate actions via a better coordination of on-going and future initiatives and a more efficient use of resources, by building upon and further implementing the Mission of JPI Climate in support to the international and European climate agenda.</p> <p><i>Role:</i> Project coordinator. Leadership of tasks on a climate research policy forum and on open climate science.</p>
2021-ongoing	<p><u>Knowledge Hub Sea Level rise</u></p> <p>JPI Climate – JPI Ocean</p> <p><i>Main scope:</i> a joint initiative between JPI-Oceans and JPI-Climate aiming at the development of European science-based assessments of sea level rise for policy makers.</p> <p><i>Role:</i> Member of the management Committee and co-leader of the Policy task Group, co-leader of 2 chapters of the upcoming report on Assessment of Sea level Rise in Europe (Chapters on adaptation measures, governance and financing mechanisms)</p>
01/2020-06/2023	<p>ADRIACLIM – Climate change information, monitoring and management tools for adaptation strategies in Adriatic coastal areas</p> <p>Interreg Italy-Croatia</p> <p><i>Total budget:</i> 8.823.415 EUR</p> <p><i>Main scope:</i> To improve climate resilience in the cooperation area (Adriatic Sea), by increasing the capacity to develop new climate adaptation plans and update existing ones and develop mitigation strategies based on high resolution, more accurate and reliable climate information, with a specific focus on the coastal and marine areas.</p> <p><i>Role:</i> Task leader on “Critical analysis of existing national and regional/local adaptation plans”. Assessment of existing national, regional and local adaptation plans on coastal area of Italy and Croatia.</p>
10/2021-09/2025	<p>RETHINKACTION – CRoss-sEcToral planning decisioN-maKing platform to foster climate Action</p> <p>Horizon 2020</p> <p><i>Total budget:</i> 4.999.817,50 EUR</p> <p><i>Main scope:</i> To develop a cross-sectoral user-friendly decision-making platform tailored to the needs of different end-users (citizens and decision-makers) for delivering clear and valuable information on climate change, increasing awareness and attractiveness of the land use-based adaptation and mitigation solutions to foster their implementation.</p> <p><i>Role:</i> Development of a Land-based Adaptation and Mitigation Solutions (LAMS) catalogue and socio-economic analysis of drivers and barriers for the LAMS implementation.</p>
10/2021-03/2026	<p>REST-COAST – Large scale RESToration of COASTal ecosystems through rivers to sea connectivity</p> <p>Horizon 2020</p> <p><i>Total budget:</i> 17.823.755,75 EUR</p> <p><i>Main scope:</i> By overcoming present technical, economic, governance and social barriers to restoration upscaling, REST-COAST will develop the large-scale river-coast connectivity and increase the nearshore accommodation space for the resilient delivery of coastal ecosystem services (ESS).</p> <p><i>Role:</i> Responsible for the development of a videogame which will help to engage and raise awareness among decision-makers, students and practitioners in understanding the benefits and challenges of nature-based solutions in coastal areas.</p>
07/2020-05/2022	<p>Development of the Lazio Region Strategy for Sustainable Development</p> <p>Region of Lazio (Italy)</p> <p><i>Total budget:</i> 19.891,30 EUR</p> <p><i>Main scope:</i> To provide technical assistance to the Lazio region on the production of knowledge base (e.g., regional climate analysis and vulnerability assessment) for the development of the regional strategy of adaptation to climate change, in addition to the stakeholder consultation process for the identification of regional adaptation options.</p> <p><i>Role:</i> Coordination of CMCC Team. Organization of Focus Groups for public consultations with regional stakeholder on: Adaptation and Water Resources; Sustainable mobility; Circular Economy; Blue Economy</p>
01/2020-06/2022	<p>Development of the Molise Region Strategy for Sustainable Development</p> <p>Region of Molise (Italy)</p> <p><i>Total budget:</i> 66.080,00 EUR</p> <p><i>Main scope:</i> Provide technical assistance on the production of knowledge base (e.g., regional climate analysis and vulnerability assessment) for the development of the regional strategy, as well as for the development of its Regional Strategy on adaptation to climate change.</p> <p><i>Role:</i> Coordination of CMCC Team. Author of the Chapter on Climate Change vulnerability and adaptation policies. Development of the regional strategy on adaptation to climate change.</p>

11/2016-10/2017	<p>PNACC development of the National adaptation plan to climate change</p> <p>Italian Ministry for the Environment, Land and Sea</p> <p><i>Total budget:</i> 430.376,00 EUR</p> <p><i>Main scope:</i> Production of knowledge base and development of the National Adaptation Plan to climate change</p> <p><i>Role:</i> Coordination of the Development and drafting of the National Adaptation Plan to climate change</p>
02/2017-02/2020	<p>“ADAPT” Consultation services</p> <p>Interreg Italia-France Maritime 2014-2020 – Project “ADAPT - Assist in the adaptation to climate change of urban systems in the cross-border space” project</p> <p><i>Total budget:</i> 3.796.730,05 EUR</p> <p><i>Main scope:</i> Improve the capacity of public institutions to jointly prevent and manage climate-related risks: hydrological risk, particularly in relation to floods, coastal erosion and fires.</p> <p><i>Role:</i> Support and consultancy services for Sassari Municipality; Alghero Municipality; Porto Torres Municipality; Vado Ligure Municipality; Olmedo Municipality; ANCI Toscana for the development local climatic profiles and to support the development of the local action plan</p>
09/2019- ongoing	<p>FERS - Future Earth Research School https://www.fersschool.it</p> <p>Co-Funded by Emilia Romagna Region</p> <p><i>Total budget:</i> 560.000,00 EUR</p> <p><i>Main scope:</i> To provide high-level scientific courses that help researchers understand and anticipate future global environmental challenges in the more general context of sustainability and climate change.</p> <p><i>Role:</i> Director of the School, Organisation of summer and winter courses; teaching activities</p>
02/2018 – 01/2022	<p><u>SINCERE</u> - Strengthening INternational Cooperation on climatE change Research</p> <p>Horizon 2020, EC</p> <p><i>Total budget:</i> 2.209.920,43 EUR</p> <p><i>Main scope:</i> To strengthen the delivery of the JPI Climate Strategic Research and Innovation Agenda, building on existing collaborations, such as the business sector and global financial institutions, and other key international research, policy and societal actors.</p> <p><i>Role:</i> CMCC Scientific Coordinator and WP2 Coordinator. Owner of the Task 2.2: Liaising with funding and investment institutions</p>
2017-2022	<p>Technical and scientific support in the multilateral negotiations of the UNFCCC and the IPCC</p> <p>Italian Ministry for the Environment, Land and Sea</p> <p><i>Total budget:</i> 1.328.459 EUR</p> <p><i>Main scope:</i> Provide technical and scientific support in the multilateral negotiations of the UNFCCC and the IPCC to the Italian Ministry for the Environment, Land and Sea</p> <p><i>Role:</i> Coordinator of the Task related to the “Study on private finance for the climate - development of mapping methodologies and monitoring of financial flows and analysis and production of estimation scenarios relating to the mobilization of private finance through public resources for mitigation actions and adaptation to climate change</p>
2017-2020	<p><u>SICAB</u> - Higher Education Program in the fields of sustainable development and management in the framework of Italy - China bilateral cooperation</p> <p>Italian Ministry for the Environment, Land and Sea</p> <p><i>Total budget:</i> 2.567.508,00 EUR</p> <p><i>Main scope:</i> Provide high-level training services in the fields of sustainable development and environmental management in the framework of Italy-China bilateral cooperation.</p> <p><i>Role:</i> Coordination and Management of CMCC experts contributing to the training programme. Lecturer for the following training modules Climate Change Strategies and Adaptation Plans, Climate Finance</p>
01/2016 – 12/2021	<p><u>ERA4CS</u> - European Research Area for Climate Services</p> <p>Horizon 2020 – European Commission</p> <p><i>Total budget:</i> 65.859.543,19 EUR</p> <p><i>Main scope:</i> Within the European Research Area (ERA), the ERA4CS Consortium is aiming to boost, research for Climate Services (CS), including climate adaptation, mitigation and disaster risk management, allowing regions, cities and key economic sectors to develop opportunities and strengthen Europe’s leadership.</p> <p><i>Role:</i> Coordination of the CMCC Team and activities. Alternate Vice Chair Member within the ERA4CS board on behalf of CMCC</p>
11/2016 – 10/2019	<p><u>MEDNICE</u> - Networks for an Innovative Cooperation in Energy efficiency</p> <p>EU, Interreg MED Programme 2014-2020, Horizontal Project</p>

Total budget: 1.092.250,00 EUR

Main scope: To empower MED projects' partners through the establishment of a MED community and a joint transnational framework around the issue of fostering energy efficiency in public buildings.

Role: Coordination and management of CMCC Team and activities related to External communication strategy and action plan; Development and implementation of external communication support and tools; Website Management (including Contents), social media, Press Material, Graphic Design (image coordinate); Coordination with MED Programme communication activities; Building Energy Efficiency in Public Buildings (EEB) Policy Recommendations

01/2013-12/2016

CLIMASOUTH - Support to Climate Change Mitigation and Adaptation in the ENPI South region

EC, EuropeAid

Total budget: 4.893.246,18 EU

Main scope: To support the transition of 10 ENP South countries (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Occupied Palestinian Territory, Syria and Tunisia) towards low carbon development and climate resilience, in a context of sustainable and democratic development, by enhancing regional cooperation, information sharing and capacity development on climate change mitigation and adaptation.

Role: Project Management, coordination and support to CMCC activities in the project. CMCC is the Leader of Work Package C (Capacity Building) and is also involved in WP A (Elaborating an Exit Strategy) and D ("Elaborating an Awareness Raising Strategy" and "Action Plan and Building and Operating a website").

07/2012 – 12/2014

ORIENTGATE - A Structured network for integration of climate knowledge into policy and territorial planning

EC, South East Europe Transnational Cooperation Programme

Total budget: 3.431.524,74 EUR

Main scope: Foster concerted and coordinated climate adaptation actions across the SEE region and convey the up-to-date climate knowledge to policy makers who may best benefit from it, that is urban planners, nature protection authorities, regional and local development agencies, territorial and public works authorities.

Role: Project manager and responsible for the project. The project aimed to implement concerted and coordinated climate adaptation actions across South Eastern Europe (SEE).

03/2010-03/2015

EC2 Europe-China Clean Energy Center (www.ec2.org.cn)

EC, EuropeAid

Total budget: 9.627.612 EUR

Main scope: To promote an increased use of clean energy in China, through the establishment of a Europe-China Clean Energy Center, for providing support to Chinese policy makers and to other energy sector key players, both Chinese and European.

Role: Project Manager

01/2010 – 12/2012

CPO – Climate Policy Outreach

EC, EuropeAid

Total budget: 500.000,00 EUR

Main scope: To improve policy making concerning GHG mitigation, including a better understanding of the potential impact of a development of a global carbon market.

Role: Project Manager and contributor to the project activities related to policy making concerning GHG mitigation, including potential impact of a global carbon market.

11/2008-11/2010

SIDS - Cooperation Italy-SIDS on climate change impacts and mitigation policies

Italian Ministry for the Environment, Land and Sea

Total budget: 490.400,00 EUR

Main scope: Cooperation Italy-SIDS on the impacts of climate change and on the policies of reduction of greenhouse gases

Role: Project Manager

07/2010-12/2013

SIDS-2 Climate Change Assessment in Small Pacific Island States

Italian Ministry for the Environment, Land and Sea

Total budget: 710.000,00 EUR

Main scope: To enhance the scientific, economic and human adaptive capacity of Pacific Island Countries to climate change and related hazards risks, with specific focus on climate change adaptation to tropical cyclones, sea level rise and storm surges

Role: Project Manager
