JOHN STUFKEN

Department of Statistics George Mason University College of Engineering and Computing 4400 University Drive, MS 4A7 Fairfax, VA 22030

email: jstufken@gmu.edu phone: +1 703-993-4835

EDUCATION

- Ph.D. in Mathematics, with Statistics as Major, University of Illinois at Chicago, 1986. (Dissertation advisor A. S. Hedayat).
- Doctoraal in Mathematics, with thesis in Mathematical Economics, University of Nijmegen (now Radboud University), The Netherlands, 1982.
- Kandidaats in Mathematics, with a Minor in Physics, University of Nijmegen (now Radboud University), The Netherlands, 1979.

POSITIONS HELD

- Full Professor and Associate Chair for Research, George Mason University, Department of Statistics, August 2022 present.
- Adjunct Professor, Arizona State University, School of Mathematical and Statistical Sciences, July 2019 present.
- Director of MS Informatics & Analytics and Bank of America Excellence Professor, University of North Carolina Greensboro, July 2019 July 2022.
- Coordinator for Statistics and Charles Wexler Professor of Statistics, Arizona State University, School of Mathematical and Statistical Sciences, August 2014 May 2019.
- Affiliated Faculty Member, Institute for Social Science Research, Arizona State University, 2017 2019.
- Head and Professor, University of Georgia, Department of Statistics, August 2003 May 2014.

- Program Director of Statistics, Division of Mathematical Sciences at the National Science Foundation, August 2000 August 2003. (As rotator from August 2000 August 2002 and as permanent employee from August 2002 August 2003.)
- Full Professor, Iowa State University, Department of Statistics, August 1997 August 2002 (August 2000 August 2002 on leave).
- Associate Professor, Iowa State University, Department of Statistics, August 1992 June 1997.
- Visiting Associate Professor, University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, Spring 1994.
- Assistant Professor, Iowa State University, Department of Statistics, August 1988 June 1992.
- Associate Professor, University of Georgia, Department of Statistics, August 1989 June 1990 (on leave).
- Assistant Professor, University of Georgia, Department of Statistics, August 1986 June 1989 (August 1988 June 1989 on leave).
- Visiting Assistant Professor, University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, Fall 1987.
- Teaching Assistant, University of Illinois at Chicago, Spring 1982 Spring 1986, except Winter 1986.
- Research Assistant, University of Illinois at Chicago, Winter 1986.
- Graduate Assistant, University of Nijmegen (now Radboud University), The Netherlands, Fall 1981.

HONORS AND AWARDS

- Received the "Doctoraal" degree cum laude at the University of Nijmegen (now Radboud University).
- Received a Graduate Fellowship at the University of Illinois at Chicago for three consecutive years.
- Received the M. G. Michael Award for Excellence in Research from the Franklin College of Arts and Sciences, University of Georgia, 1988.
- Elected to Fellowship in the Institute of Mathematical Statistics, 2000.

- Selected as "Teacher of the Year" by the Iowa Stat-ers (the graduate student organization in the Department of Statistics at Iowa State University), 1999/2000.
- Elected to Fellowship in the American Statistical Association, 2001.
- Elected Member International Statistical Institute, 2005.
- Rothschild Distinguished Visiting Fellowship, Isaac Newton Institute for Mathematical Sciences, August 10 September 9, 2011.
- Charles Wexler endowed Professor, Arizona State University, August 2014 May 2019.
- Bank of America Excellence Professor, University of North Carolina Greensboro, July 2019
 July 2022.
- Honorary Member of the Society of Statistics, Computer and Applications, 2020

MEMBERSHIP OF PROFESSIONAL ORGANIZATIONS

- Institute of Mathematical Statistics (Elected Fellow)
- American Statistical Association (Elected Fellow)
- International Statistical Institute (Elected Member)

RESEARCH PUBLICATIONS

• Books

INVITED PRESENTATIONS AT PROFESSIONAL MEET-INGS AND INVITED LECTURES

1. On bounds for the efficiency of block designs for comparing test treatments with a control. At the Joint Statistical Meetings, August 1986, Chicago, Illinois (an ASA session).

- 2. Two-symbol orthogonal arrays. At the First International Conference-Workshop on Optimal Design and Analysis of Experiments, July 25-28, 1988, University of Neuchâtel, Switzerland.
- 3. Sampling designs useful for solid waste sampling. At the Joint Statistical Meetings, August 22-25, 1988, New Orleans, Louisiana (a session of the Survey Research Section of the ASA).
- 4. On some families of repeated measurements designs. At the Western Regional IMS Meeting, June 25-28, 1989, Davis, California.
- 5. On the construction of orthogonal arrays. At the meeting "Design of Experiments: Optimality, Construction, and Applications", May 2-8, 1993, Mathematisches Forschungsinstitut Oberwolfach, Germany.
- Trend-free and nearly trend-free block designs (with D. Majumdar). At the Eastern Regional IMS/ENAR Meeting, Birmingham, Alabama, March 26-29, 1995.
- Sampling designs to control selection probabilities of contiguous units (with A.S. Hedayat). At the R.C. Bose Memorial Conference, Colorado State University, Fort Collins, Colorado, June 7-11, 1995.
- On difference schemes and orthogonal arrays of strength t (with A.S. Hedayat and G. Su). At the R.C. Bose Memorial Conference, Colorado State University, Fort Collins, Colorado, June 7-11, 1995. (Presented by G. Su)
- 9. Design of experiments in the presence of trends. At the First DeKalb Symposium on Recent Developments in Statistical Science, DeKalb, Illinois, September 27-29, 1996.
- Crossover Designs. At the 50th Anniversary Conference of the Department of Statistics, Iowa State University, Ames, Iowa, October 16-18, 1997.
- Crossover Designs. At the Longitudinal Data Analysis Workshop, Northern Illinois University, November 6-7, 1997.
- Orthogonal Arrays. Two 2-hour lectures at the University of Dortmund, Germany, November 17-21, 1997.
- 13. Compound Orthogonal Arrays. At the meeting "Experimental Design: Theory and Applications", Nov. 1-7, 1998, Mathematisches Forschungsinstitut Oberwolfach, Germany.
- Crossover Designs for Correlated Data (with A.S. Hedayat). At the Fifth Annual Biopharmaceutical Applied Statistics Symposium (BASS), Hilton Head Island, South Carolina, December 7-11, 1998. (Presented jointly with A.S. Hedayat)
- Compound Orthogonal Arrays (with A.S. Hedayat). At the Spring Central Section Meeting of the AMS, Urbana, IL, March 18-21, 1999. (Presented by A.S. Hedayat)
- Optimal and Efficient Crossover Designs. At the First International Workshop on Crossover Designs, Göteborg, Sweden, May 19-20, 1999.

- Compound Orthogonal Arrays (with A.S. Hedayat). At the Spring Research Conference on Statistics and Technology, Minneapolis-St.Paul, MN, June 2-4, 1999.
- Compound Orthogonal Arrays. At the Annual Meeting of the Statistical Society of Canada, Regina, Canada, June 6-9, 1999.
- Optimal Crossover Designs. At the Sixth International Conference on Statistics, Combinatorics, and Related Areas, Forum for Interdisciplinary Mathematics, Mobile, AL, December 18-20, 1999.
- Orthogonal arrays: Open problems and recent developments. At "Reflections on the Past and Visions for the Future", an International Conference in Honor of Professor C.R. Rao, San Antonio, Texas, March 16-19, 2000.
- Discussion leader at roundtable discussion on "Orthogonal Arrays: Theory and Applications" at the First Midwest Conference for New Directions in Experimental Design, Columbus, Ohio, May 18-20, 2000.
- 22. Compound orthogonal arrays and dispersion effects (with A.S. Hedayat). At the Second International Conference on Mathematical Methods in Reliability: Methodology, Practice and Inference. Bordeaux, France, July 4-7, 2000. (Presented by A.S. Hedayat.)
- Polygonal designs. At the IMS Western Regional Meeting (with WNAR and the Statistical Society of Canada), Vancouver, Canada, June 10-14, 2001.
- 24. Optimal crossover designs in a model with self and mixed carryover effects (with Joachim Kunert). Model Oriented Data Analysis (MODA) 6, Austria, June 25-29, 2001 (presented by Kunert).
- 25. NSF/DMS Statistics Program. At the Joint Statistical Meetings, Atlanta, GA, August 5-9, 2001.
- Optimal and efficient crossover designs (with A.S. Hedayat). At the Joint Statistical Meetings, Atlanta, GA, August 5-9, 2001.
- Crossover designs for two treatments. At the Fourth Biennial International Conference on Statistics, Probability and Related Areas, DeKalb, IL, June 14-16, 2002.
- Funding for research in statistics at the National Science Foundation. At the Fourth Biennial International Conference on Statistics, Probability and Related Areas, DeKalb, IL, June 14-16, 2002.
- Block designs in the presence of trends (with Dibyen Majumdar). At the Fourth Biennial International Conference on Statistics, Probability and Related Areas, DeKalb, IL, June 14-16, 2002 (presented by Majumdar).
- 30. Considerations for selecting a crossover design. At the 2002 Taipei International Statistical Symposium and Bernoulli Society EAPR Conference, Taipei, Taiwan, July 7-10, 2002.

- Orthogonal arrays: Selected results. At the conference Design and Analysis of Experiments 1 (DAE1), Vancouver, Canada, July 14-18, 2002.
- 32. Roundtable discussion leader on funding for statistics at the NSF. At the conference Design and Analysis of Experiments 1 (DAE1), Vancouver, Canada, July 14-18, 2002.
- Considerations for selecting a crossover design. At the conference Design and Analysis of Experiments 2003 (DAE 2003), Chicago, IL, May 14-17, 2003.
- 34. On the use of Hadamard matrices in the design of experiments. Presentation for the US Mathematics Olympiad Winners during their visit to the National Science Foundation, Arlington, VA, June 23, 2003.
- Considerations for selecting a crossover design. Justus F. Seely Memorial Conference on Linear Models, Corvallis, OR, July 31-Aug. 1, 2003.
- Polygonal designs: A synopsis. International Conference on Statistics, Combinatorics and Related Areas, 10th Conference of the Forum for Interdisciplinary Mathematics, Portland, ME, October 3-5, 2003.
- Statistics: Opportunities and challenges. International Conference on Statistics, Combinatorics and Related Areas, 10th Conference of the Forum for Interdisciplinary Mathematics, Portland, ME, October 3-5, 2003.
- Factorial experiments: An introduction. Lecture for students and faculty at Bucknell University as a visitor in the Distinguished Visitor Program of the Department of Mathematics, Lewisburg, PA, March 10, 2004.
- Crossover designs: Some recent developments. Lecture at Bucknell University as a visitor in the Distinguished Visitor Program of the Department of Mathematics, Lewisburg, PA, March 11, 2004.
- Polygonal designs: An overview. Research Meeting of the Southern Regional Council on Statistics, Blacksburg, VA, June 6-9, 2004.
- Polygonal designs: An overview. Model Oriented Data Analysis and Optimal Design (mODa) 7, Heeze, The Netherlands, June 14-18, 2004.
- Optimal and efficient crossover designs when subject effects are random. ENAR, Austin, TX, March 20-23, 2005 (IMS session).
- Orthogonal arrays with or without additional structure or properties. Workshop on Quality Improvement Methods, Witten-Bommerholz (near Dortmund), Germany, April 1-2, 2005.
- 44. Optimal and efficient crossover designs when subject effects are random. International Conference on Design of Experiments (ICODOE), Memphis, TN, May 12-15, 2005.

- 45. Optimal and efficient crossover designs when subject effects are random. International Conference on Statistics in Honour of Professor Kai-Tai Fang's 65th Birthday (Fang65), Hong Kong, June 20-24, 2005.
- 46. On a class of block designs and its use in sampling. Design and Analysis of Experiments: DAE2005, Santa Fe, NM, October 11-14, 2005.
- 47. Some Combinatorial Questions Emanating from the Design of Experiments. International Conference on Statistics, Combinatorics and Related Areas, 12th Conference of the Forum for Interdisciplinary Mathematics, Auburn, December 2-4, 2005.
- Moderator of Editors' Round Table. International Conference on Statistics, Combinatorics and Related Areas, 12th Conference of the Forum for Interdisciplinary Mathematics, Auburn, December 2-4, 2005.
- 49. On two-treatment crossover designs. International Conference on Design of Experiments and Its Applications, Tianjin, China, July 9-13, 2006.
- Moderator of Editors' Round Table. International Conference on Interdisciplinary Mathematical & Statistical Techniques, 13th Conference of the Forum for Interdisciplinary Mathematics, Tomar, Portugal, September 1-4, 2006.
- On a class of PBIB designs useful in sampling. Sixth International Triennial Calcutta Symposium on Probability and Statistics, Special Session in the Memory of Prof. R.C. Bose, Kolkata, India, December 29-31, 2006.
- 52. On Block Designs Useful in Sampling. International Conference on Interdisciplinary Mathematical & Statistical Techniques (IMST) 2007, 15th Conference of the Forum for Interdisciplinary Mathematics, Shanghai, China, May 20-23, 2007 (plenary presentation).
- 53. Moderator of Editors' Round Table. International Conference on Interdisciplinary Mathematical & Statistical Techniques (IMST) 2007, 15th Conference of the Forum for Interdisciplinary Mathematics, Shanghai, China, May 20-23, 2007.
- Carry-Over Effects in Cross-Over Designs. Joint Statistical Meetings 2007 (topic contributed session), Salt Lake City, UT, June 28 - August 2, 2007.
- 55. Maximin Universally Optimal Block Designs in the Presence of a Trend. International Conference on Advances in Interdisciplinary Statistics and Combinatorics, Greensboro, NC, October 12-14, 2007.
- Maximin Universally Optimal Block Designs in the Presence of a Trend. Design and Analysis of Experiments 2007, Memphis, TN, November 1-3, 2007.
- 57. On determining support points of locally optimal designs for nonlinear models. International Conference on Interdisciplinary Mathematical & Statistical Techniques (IMST) 2008, 16th Conference of the Forum for Interdisciplinary Mathematics, Memphis, TN, May 15-18, 2008.

- On determining support points of locally optimal designs for nonlinear models. 15th Annual Spring Research Conference (SRC) on Statistics in Industry and Technology, Atlanta, GA, May 19-21, 2008.
- 59. On locally optimal designs for generalized linear models with group effects. The 6th Workshop on Simulation, St. Petersburg, Russia, June 28 - July 4, 2009.
- 60. On locally optimal designs for generalized linear models with group effects. Design and Analysis of Experiments 2009, Columbia, MO, October 14-17, 2009.
- Carry-over effects when using crossover designs. The 10th Islamic Countries Conference on Statistical Sciences, Cairo, Egypt, December 20-23, 2009.
- Optimal and Efficient Designs for Generalized Linear Models. Joint Statistical Meetings 2010, Vancouver, BC, Canada, July 31 - August 5, 2010.
- 63. Some combinatorial structures useful in design of experiments (Mini-symposium on Optimal Design of Experiments). CanaDAM 2011, Victoria, BC, Canada, May 31 June 3, 2011.
- Tools to identify optimal designs for generalized linear models. Statistical Society of Canada 2011 Meeting, Wolfville, Halifax, CA, June 12-15, 2011.
- 65. Invited panelist for a panel on "Future directions for design of experiments". Design of Experiments: Methods and Applications 2011, Isaac Newton Institute, Cambridge, UK, August 30 - September 2, 2011.
- A Short Overview of Orthogonal Arrays. Rothschild Visiting Professor Lecture, Isaac Newton Institute, Cambridge, UK, September 5, 2011.
- 67. On Optimal Designs for Generalized Linear Models. Optimal Design of Experiments Theory and Application, Vienna, Austria, September 25-30, 2011.
- On an Extension for Identifying Locally Optimal Designs for Nonlinear Models. IMS/ASA Spring Research Conference 2012, Harvard University, Boston, MA, June 13-15, 2012.
- On an Extension for Identifying Locally Optimal Designs for Nonlinear Models. The 2nd IMS Asia Pacific Rim Meeting, Tsukuba, Japan, July 2-4, 2012.
- Locally Optimal Designs for Nonlinear Models. Plenary presentation at the International Conference on Advances in Interdisciplinary Statistics and Combinatorics, Greensboro, NC, October 5-7, 2012.
- Some Thoughts About L-Designs for Parallel Line Assays. Seventh International Workshop on Simulation, Rimini, Italy, May 21-25, 2013.
- Some Thoughts About L-Designs for Parallel Line Assays. The 7th Workshop on Statistics, Mathematics and Computation, Tomar, Portugal, May 28-29, 2013.
- C.-S. Cheng: Selected Highlights. ASA/IMS Spring Research Conference 2013, University of California Los Angeles, Los Angeles, CA, June 20-22, 2013.

- Statistical Leadership in Academia (presentation & panel). NISS Affiliates Meeting, Baltimore, MD, March 16, 2014.
- 75. Saturated Locally Optimal Designs Under General Optimality Criteria. The 3rd IMS Asia Pacific Rim Meeting, Taipei, Taiwan, June 29 - July 3, 2014.
- 76. Recent Developments on Optimal Designs for Nonlinear and Generalized Linear Models. Conference on Experimental Design and Analysis 2014, Taipei, Taiwan, July 4-5, 2014.
- 77. On Optimal Designs for Nonlinear Mixed Effects Models. Building Statistical Methodology and Theory 2014 (In honor of Jeff Wu's 65th birthday), Mile, China, July 7-9, 2014.
- On optimal designs for nonlinear mixed effects models (plenary talk). International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), Greensboro, NC, October 10-12, 2014.
- 79. On connections between orthogonal arrays and D-optimal designs for certain generalized linear models with group effects. Design and Analysis of Experiments in Healthcare, Isaac Newton Institute for Mathematical Sciences, Cambridge, UK, July 6-10, 2015.
- Design of Experiments: From Small Data to Big Data. Helen Barton Lecture Series in Computational Mathematics, Department of Mathematics and Statistics, University of North Carolina Greensboro, Greensboro, NC, March 28, 2016.
- Using fractional factorials to obtain efficient designs for certain generalized linear models. 2016 International Conference on Design of Experiments (ICODOE), Memphis, TN, May 10-13, 2016.
- Using fractional factorials to obtain efficient designs for certain generalized linear models. 2016 Spring Research Conference (SRC), Illinois Institute of Technology, Chicago, IL, May 25-27, 2016.
- 83. Using fractional factorials to obtain efficient designs for certain generalized linear models. International Chinese Statistical Association Symposium, Atlanta, GA, June 12-16, 2016.
- Using fractional factorials to obtain efficient designs for certain generalized linear models. Joint Statistical Meetings, Chicago, IL, July 30 - August 4, 2016.
- Optimal design and subdata selection for big data. 2016 International Indian Statistical Association Conference, Corvallis, OR, August 18-21, 2016.
- Optimal designs for GLMs with multiple covariates. International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), Greensboro, NC, September 30 -October 2, 2016.
- Optimal design and subdata selection for big data (plenary talk). International Conference on Statistical Distributions and Applications (ICOSDA), Niagara Falls, ON, Canada, October 14-16, 2016.

- 88. Optimal designs for GLMs with multiple covariates. Conference on Experimental Design and Analysis (CEDA), Academia Sinica, Taipei, Taiwan, December 15-17, 2016.
- Thoughts about optimal statistical design for environmental risk assessment. Spring Research Conference, New Brunswick, NJ, May 17-19, 2017.
- 90. Thoughts about optimal statistical design for environmental risk assessment. The 1st International Conference on Econometrics and Statistics, Hong Kong, June 15-17, 2017.
- Information-Based Subdata Selection and Variable Selection. International Chinese Statistical Association Applied Statistics Symposium, Chicago, IL, June 25-28, 2017.
- 92. How relevant are we? Latest Advances in the Theory and Applications of Design and Analysis of Experiments, Banff International Research Station, Banff, Canada, August 6-11, 2017.
- Thoughts about optimal statistical design for environmental risk assessment. IASSL Conference 2017, Colombo, Sri Lanka, December 28-29, 2017.
- 94. Information-based optimal subdata selection. At the conference Design of Experiments: New Challenges, Centre International de Rencontres Mathématiques, Marseille, France, April 30 - May 4, 2018.
- Optimal Designs for Mixed Effects Models. The 2nd International Conference on Econometrics and Statistics, Hong Kong, June 19-21, 2018.
- 96. Optimal Designs for Mixed Effects Models. The 5th Institute of Mathematical Statistics Asia Pacific Rim Meeting, National University of Singapore, Singapore, June 26-29, 2018.
- Information-Based Optimal Subdata Selection. Joint Statistical Meetings (JSM) 2018, Vancouver, BC, Canada, July 28 - August 2, 2018.
- 98. Information-Based Optimal Subdata Selection. International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), Greensboro, NC, October 5-7, 2018.
- Information-Based Optimal Subdata Selection. Congreso Bienal de la Real Sociedad Matemática Española, Santander, Spain, February 4-8, 2019.
- Augmenting Definitive Screening Designs. 17th Workshop on Quality Improvement Methods, Dortmund, Germany, June 14-15, 2019.
- Subdata Selection Methods. Computational and Methodological Statistics (CMStatistics), University of London, UK, December 14-16, 2019.
- 102. Musings about supersaturated designs. 2021 International Indian Statistical Association Conference, virtual, May 20-23, 2021.
- 103. Factor selection in screening experiments. 4th International Conference on Econometrics and Statistics (EcoSta), virtual, June 24-26, 2021.

- 104. Factor selection in screening experiments. 63rd ISI World Statistics Congress, online, July 11-15, 2021.
- 105. Factor selection in screening experiments. 18th Workshop on Quality Improvement Methods (QIM), University of Dortmund, Germany, hybrid, July 16-17, 2021.
- 106. Xiangrong Yin: A tribute to a passionate researcher and loyal friend. Joint Statistical Meetings, online, August 8-12, 2021.
- 107. Factor Selection in Screening Experiments. International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC) 2021, online, October 8-10, 2021.
- 108. Thoughts and observations on DAE: The Good, the Bad and the Ugly. Panelist for panel on the future of design and analysis of experiments, Design and Analysis of Experiments (DAE), online, October 21, 2021.
- 109. Factor selection in screening experiments. Computational and Methodological Statistics (CMStatistics) 2021, King's College, London, UK, hybrid, December 18-20, 2021.
- 110. Does design selection matter for 2-level screening experiments? M.N. Das Memorial Lecture at Recent Advances in Statistical Theory and Applications (RASTA 2022), online, February 23-27, 2022.
- 111. Optimal designs for generalized linear mixed models. 5th International Conference on Econometrics and Statistics (EcoSta 2022), online, June 4-6, 2022.
- 112. Subdata selection methods with a large number of variables. Joint Statistical Meetings, Washington DC, August 6-11, 2022.
- 113. Subdata selection with a large number of variables. International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), Greensboro, NC, October 7-9, 2022.
- 114. Subdata selection with a large number of variables. Computational and Methodological Statistics (CMStatistics), King's College, London, UK, December 17-19, 2022.
- 115. Statistical Data Science at Mason: An Opportunity or a Lost Opportunity? 30-Year Anniversary of the Department of Statistics, George Mason University, Fairfax, VA, March 24, 2023.
- TreeSS: A model-free Tree-based Subdata Selection method for prediction. ASA/IMS Spring Research Conference, Banff, Canada, May 24-26, 2023.
- 117. TreeSS: A model-free Tree-based Subdata Selection method for prediction. Model Oriented Data Analysis and Optimum Design (mODa 13), Southampton, United Kingdom, July 9-14, 2023.
- 118. TreeSS: A model-free Tree-based Subdata Selection method for prediction. 64th ISI World Statistics Congress, Ottawa, Canada, July 16-20, 2023.

- 119. Analyzing Big Data Using Smart Experimental Design Ideas. Speaker/moderator for SPES Roundtable at the Joint Statistical Meetings (JSM2023), Toronto, Canada, August 5-10, 2023.
- 120. TreeSS: A model-free Tree-based Subdata Selection method for prediction. Helen Barton Lecture Series in Computational Mathematics, Department of Mathematics and Statistics, University of North Carolina at Greensboro, Greensboro, NC, September 20, 2023.
- 121. TreeSS: A model-free Tree-based Subdata Selection method for prediction. Computational and Methodological Statistics (CMStatistics) (virtual), December 16-18, 2023.
- 122. Subdata Selection With a Large Number of Variables. New England Statistical Society Webinar on Selected Papers by the New England Journal of Statistics in Data Science (virtual), March 1, 2024.
- 123. Thoughts on Supersaturated Designs for Factor Screening Experiments. Design and Analysis of Experiments 2024, Blacksburg, VA, May 14-17, 2024.
- 124. Design and Analysis of Experiments: Opportunities and Challenges. Panelist at Design and Analysis of Experiments 2024, Blacksburg, VA, May 14-17, 2024.
- 125. Information-Based Optimal Subdata Selection for Clusterwise Linear Regression. International Conference on Robust Statistics (ICORS) and the Conference on Data Science, Statistics and Visualisation (DSSV), Fairfax, VA, July 28-August 1, 2024.
- 126. Thoughts on Supersaturated Designs for Factor Screening Experiments. Joint Statistical Meetings 2024, Portland, OR, August 3-8, 2024.
- 127. Subsampling for Big Data. Plenary presentation, International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), Greensboro, NC, October 11-13, 2024.
- 128. Selecting Informative Subdata from a Large Dataset. IMS International Conference on Statistics and Data Science (IMS ICSDS), Nice, France, December 16-19, 2024.

OTHER PRESENTATIONS AT PROFESSIONAL MEET-INGS

- Concepts of balance in block designs. At the Joint Statistical Meetings, August 6-10, 1989, Washington, D.C. (a topic-contributed ASA session).
- 2. On group divisible treatment designs for comparing test treatments with a standard treatment in blocks of size 3 (with K.-J. Wang). At the International Statistical Symposium, Taipei, R.O.C., June 28-30, 1990. (Presented by K.-J. Wang)

- 3. Comparing test treatments with a control. At the Joint Statistical Meetings, August 18-22, 1991, Atlanta, Georgia.
- 4. Fractional factorial designs with equal information matrices (with K.-J. Wang). At the Joint Statistical Meetings, August 18-22, 1991, Atlanta, Georgia. (Presented by K.-J. Wang)
- 5. Sampling designs useful for solid waste sampling (with A.S. Hedayat). At the 1991 Conference on Solid Waste Research and Technology, October 15-16, 1991, Oak Brook, Illinois.
- 6. On the existence of *p*-trend-free block designs. At the 1997 Joint Statistical Meetings, Anaheim, California.
- 7. Panelist for "A Forum for Communication with the National Science Foundation", a topic contributed panel at the Joint Statistical Meetings, San Francisco, CA, August 3-7, 2003.
- 8. Thoughts about optimal statistical design for environmental risk assessment. Joint Statistical Meetings, July 29 August 3, 2017, Baltimore, Maryland. (Substitute speaker for Wanchunzi Yu.)

INVITED SEMINAR OR COLLOQUIUM SPEAKER

1. On comparing test treatments with a control

- University of California, Santa Barbara, Department of Mathematics, 1986
- Purdue University, West Lafayette, Department of Statistics, 1986
- Columbia University, New York, Department of Statistics, 1986
- University of Southern California, Los Angeles, Department of Mathematics, 1986
- University of British Columbia, Vancouver, Department of Statistics, 1986
- University of Illinois at Urbana, Department of Statistics, 1986
- University of Kentucky, Lexington, Department of Statistics, 1986
- University of Georgia, Athens, Department of Statistics, 1986
- University of South Carolina, Columbia, Department of Statistics, 1986
- Cornell University, Ithaca, Biometrics Unit and School of Operations Research and Industrial Engineering, 1986
- University of Iowa, Iowa City, Department of Statistics and Actuarial Science, 1986
- Harvard University, Cambridge, Department of Statistics, 1986
- University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, 1986

2. On the construction of ΠPS sampling designs

• University of Georgia, Athens, Department of Statistics, 1987

3. A-optimal and highly efficient block designs for comparing test treatments with a control

• Iowa State University, Ames, Department of Statistics, 1988

4. Optimal and efficient repeated measurements designs

• Iowa State University, Ames, Department of Statistics, 1989

5. Variance balanced and pairwise balanced block designs

• University of Guelph, Guelph, Department of Mathematics and Statistics, 1989

6. On comparing test treatments with a standard treatment

• University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, 1990

7. Trend-free and nearly trend-free designs: Selected results

• Iowa State University, Ames, Department of Statistics, 1992

8. Orthogonal arrays: Construction and existence

• University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, 1993

9. Orthogonal arrays: Selected results and some open problems

- University of Waterloo, Waterloo, Department of Statistics and Actuarial Science, 1993
- Tamkang University, Taipei, Taiwan, Department of Mathematics and Department of Statistics, 1996
- Academia Sinica, Taipei, Taiwan, Institute of Statistical Science, 1997

10. Orthogonal arrays: Some selected problems

• Northern Illinois University, Division of Statistics, 1994

11. Crossover designs

- University of Dortmund, Germany, Department of Statistics, 1997
- University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, 1998

12. Orthogonal arrays and compound orthogonal arrays

• Virginia Tech, Department of Statistics, 1998

13. Studying dispersion effects through designed experiments

• University of Illinois at Chicago, Department of Mathematics, Statistics, and Computer Science, 1999

14. Some recent developments on crossover designs

- George Mason University, Computational Statistics, 2002
- University of Georgia, Department of Statistics, 2002
- Iowa State University, Department of Statistics, 2002
- Columbia University, Department of Biostatistics, 2002
- Michigan State University, Department of Statistics and Probability, 2003

15. Funding for research in statistics at the NSF

- North Carolina State University, Department of Statistics, 2002
- Michigan State University, Department of Statistics and Probability, 2003

16. Combinatorial structures in design of experiments

• Clemson University, Department of Mathematical Sciences, 2004

17. Two-treatment crossover designs

• Georgia Institute of Technology, School of Industrial and Systems Engineering, 2006

18. On Block Designs Useful in Sampling

- University of Central Florida, Department of Statistics and Actuarial Science, 2007
- East China Normal University, Department of Statistics, 2007

19. Writing and Publishing

- University of Georgia, Department of Statistics, Graduate Student Seminar, 2007
- Zhejiang University, School of Management, Hangzhou, China, 2007
- University of Georgia, Department of Statistics, Graduate Student Seminar, 2009
- University of Georgia, Department of Statistics, Lecture in STAT 8920, 2010, 2011

20. Maximin Universally Optimal Block Designs in the Presence of a Trend

• University of South Alabama, Department of Mathematics and Statistics, 2008

21. Carryover Effects in Crossover Designs

- University of Pennsylvania, Department of Biostatistics and Epidemiology, 2008
- University of Missouri-Columbia, Department of Statistics, 2008

22. Carryover Effects when Using Crossover Designs

• Simon Fraser University, Department of Statistics & Actuarial Science, 2010

23. Optimal and Efficient Designs for Generalized Linear Models

• Temple University, Department of Statistics, 2010

24. Design of Experiments: A Non-technical Introduction

• University of Georgia, Department of Statistics, Lecture in STAT 8910, 2011, 2012, 2013, 2014

25. Research proposals: Proposal writing and the review process (with emphasis on the NSF)

• University of Georgia, Department of Statistics, Lecture in STAT 8930, 2011, 2012, 2013

26. Considerations when using crossover designs

- Georgia Health Sciences University, Department of Biostatistics & Epidemiology, 2012
- Arizona State University, School of Mathematical & Statistical Sciences, 2013

27. Locally Optimal Designs for Nonlinear Models

- University of Illinois at Chicago, Department of Mathematics, Statistics and Computer Science, 2012
- Academia Sinica, Institute of Statistics, Taipei, 2012
- Arizona State University, School of Mathematical & Statistical Sciences, 2013

28. Orthogonal Arrays: A Brief Overview

- University of Illinois at Chicago, Department of Mathematics, Statistics and Computer Science, 2013
- Arizona State University, School of Mathematical and Statistical Sciences, 2013

29. (Locally) Optimal Designs for Nonlinear and Generalized Linear Models

- Virginia Tech, College of Science, 2013
- Arizona State University, School of Mathematical and Statistical Sciences, 2014

30. Recent Developments on Optimal Designs for Nonlinear and Generalized Linear Models

- Seoul National University, 2014
- University of Arizona, Statistics Graduate Interdisciplinary Degree Program Colloquium, 2015
- University of California, Riverside, Department of Statistics, 2015

31. Design of Experiments: From Small Data to Big Data

- University at Buffalo, Department of Biostatistics, 2016
- University of Georgia, Department of Statistics, 2016
- University of Dortmund, joint statistics seminar of the Technische Universität Dortmund and Ruhr-Universität Bochum, 2016

32. Optimal design and subdata selection for big data

• Arizona State University, School of Mathematical and Statistical Sciences (RTG seminar), 2016

33. An Introduction to Design of Experiments

• Arizona State University, School of Mathematical and Statistical Sciences (2 lectures in RTG seminar), 2017

34. Thoughts about optimal statistical design for environmental risk assessment

- Arizona State University West Campus, School of Mathematical and Natural Sciences, 2017
- University of Kentucky, Department of Statistics, 2017

35. Too Much Data!

- Simon Fraser University, Department of Statistics and Actuarial Science, 2019
- University of Illinois at Chicago, Department of Mathematics, Statistics and Computer Science, 2019

36. Subdata selection

- Universidad de Castilla-La Mancha, 2019
- Universidad de Salamanca, 2019
- Universidad de Almería, 2019
- University of North Carolina Greensboro, Department of Mathematics and Statistics, 2019
- University of California Riverside, Department of Statistics, 2019

37. Professional Development

• University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2020

38. Subdata Selection Methods

- Otto-Von-Guericke University, Magdeburg (virtual presentation), 2020
- George Mason University, Department of Statistics, 2022
- University of South Carolina, Department of Statistics, 2022

39. Factor Selection in Screening Experiments

- University of Alabama, Department of Information Systems, Statistics, and Management Science (virtual presentation), 2021
- North Carolina A&T State University, Department of Mathematics and Statistics, Department of Computer Science, and NSF HBCU-UP ACE Implementation Project (virtual presentation), 2021
- University of North Carolina Greensboro, Department of Mathematics and Statistics (virtual presentation), 2021
- Durham University, Department of Mathematical Sciences (virtual presentation), 2021

40. Musings on Design and Analysis of Experiments

• University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2021

41. Preparing for a Successful Career

- University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2021
- University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2022
- University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2023
- University of North Carolina Greensboro, REU Program, Department of Mathematics and Statistics (virtual presentation), 2024

42. Design Selection for Factor Screening Experiments

• University of Potsdam, Mathematics Institute, (virtual presentation), 2021

43. Musings on Subdata Selection

- Binghamton University, Department of Mathematics and Statistics, 2022
- University of Connecticut, Department of Statistics, 2022
- William & Mary, Department of Mathematics, 2022
- Virginia Commonwealth University, Department of Statistical Sciences and Operations Research, 2023
- University of Virginia, Department of Statistics, 2023

44. TreeSS: A model-free Tree-based Subdata Selection method for prediction

• University of Maryland School of Medicine, Biostatistics and Bioinformatics, 2023

45. Selecting Informative Subdata from a Large Dataset

• University of California Los Angeles, Department of Statistics & Data Science, 2024

EDITORIAL POSITIONS

- 1. Co-Editor, Statistica Sinica, August 2023 July 2026.
- 2. Editor, **The American Statistician**, January 1, 2009 December 31, 2011. (Editor-Elect July 1 December 31, 2008)
- 3. Executive Editor, Journal of Statistical Planning and Inference, January 2004 December 2006.
- 4. Editor, International Statistical Review, 2022 present.
- Associate Editor, Journal of the American Statistical Association, 2003 2005, 2011 - 2022.
- 6. Associate Editor, Journal of Statistical Theory and Practice, 2006 present.
- 7. Associate Editor, Statistica Sinica, 2014 2023.
- 8. Guest Editor (with A. Mandal and R. Singh) for a special issue on design of experiments in the Journal of Statistical Theory and Practice, vol. 15, issue 4, 2021.
- 9. Guest Editor (with M. Aggarwal and A. Mandal) for a special issue on discrete choice experiments in the Journal of Statistical Theory and Practice, vol. 11, issue 2, 2017.
- 10. Associate Editor, Statistical Methodology, 2007 2010.
- 11. Associate Editor, Journal of Statistical Planning and Inference, 1995 2003.
- 12. Associate Editor, Communications in Statistics Theory and Methods, 1993 2001.

SERVICE AS REVIEWER

- 1. Served as **external reviewer for 79 promotion candidates** (42 to associate professor; 37 to professor).
- 2. Served on **external review team** for Department of Mathematics and Statistics, University of Maryland Baltimore County, 2007.
- 3. Chaired review team for Department of Mathematics, University of Georgia, 2010.
- 4. Chaired **external review team** for Department of Statistics and Actuarial Science, Simon Fraser University, 2013.

- 5. Served on NSF site visit team for third-year review of SAMSI, 2015.
- 6. Served on **external review team** for Department of Statistics, Colorado State University, 2015.
- 7. Served on **external review team** for Department of Statistics, University of Central Florida, 2017.
- 8. Served on **external review team** for Department of Statistics, University of Connecticut, 2017.
- 9. Served on **external review team** for the Graduate Interdisciplinary Program in Statistics and Data Science, University of Arizona, 2024.
- 10. Served on **external review team** for the graduate programs in the School of Mathematical and Statistical Sciences, Clemson University, 2024.
- 11. Served on proposal review panels for the National Science Foundation, 2000, 2007, 2013, 2019, 2021.
- 12. Served on 6 NSF VIGRE site visit teams. Observed 1 site visit for the Mathematical Sciences Institutes competition.
- 13. Served as Jury Member for the 2022 awards competition of the **Spanish Society of Statis**tics and **Operations Research BBVA Foundation**.
- 14. Refereed papers for the following 48 professional outlets (numbers of papers in parentheses, not counting revisions):
 - Annals of Applied Statistics (1)
 - Annals of Statistics (25)
 - Annals of the Institute of Statistical Mathematics (1)
 - Australasian Journal of Combinatorics (1)
 - Biometrical Journal (1)
 - **Biometrics** (2)
 - Biometrika (12)
 - Book in Honor of C.R. Rao (1)
 - Calcutta Statistical Association Bulletin (1)
 - Communications in Statistics (11)
 - Computational Statistics (1)
 - Computational Statistics & Data Analysis (4)
 - Contributions to Discrete Mathematics (1)
 - Discrete Applied Mathematics (1)
 - Discrete Mathematics (1)

- Econometrics and Statistics (1)
- Forest Science (1)
- Genetics Selection Evolution (1)
- Handbook of Research on Applied Cybernetics and Systems Science (1)
- Handbook of Statistics (1)
- International Statistical Review (1)
- Journal of Applied Statistics (1)
- Journal of Agricultural, Biological, and Environmental Statistics (1)
- Journal of Combinatorial Design (3)
- Journal of Combinatorics, Information and System Sciences (1)
- Journal of Computational and Graphical Statistics (1)
- Journal of King Saud University (Science) (1)
- Journal of Statistical Planning and Inference (21)
- Journal of the American Statistical Association (7)
- Journal of the Indian Society of Agricultural Statistics (1)
- Journal of the Royal Statistical Society (3)
- Mathematical Methods of Statistics (1)
- Metrika (6)
- Proceedings of the Conference on New Developments and Applications in Experimental Design (1)
- Proceedings of the IPM-20 Combinatorics Conference (1)
- Proceeding of Meeting of the Saudi Association of Mathematical Sciences (1)
- Quality Engineering (1)
- Sankhyā (5)
- **Stat** (1)
- Statistica Sinica (8)
- Statistical Methods in Medical Research (1)
- Statistical Papers (4)
- Statistics (1)
- Statistics and Applications (1)
- Statistics and Probability Letters (10)
- Technometrics (5)
- The American Statistician (6)
- Utilitas Mathematica (1)

- 15. Excluding my period as Program Director at the NSF and panel service, I reviewed research proposals for the following agencies:
 - National Science Foundation (19)
 - Natural Sciences and Engineering Research Council of Canada (7)
 - National Research Council (4)
 - Ohio Super Computing Center (2)
 - FWO Belgium (2)
 - North Carolina Board of Science and Technology (1)
 - Swedish Research Council for Engineering Sciences (1)
 - Australian Research Council (1)
 - Technology Foundation STW (1)
 - Banff International Research Station (1)
- 16. Reviewed 3 books, for the following 2 journals:
 - Journal of the American Statistical Association (2)
 - Technometrics (1).
- 17. Reviewed book manuscripts for John Wiley and Sons (1), Springer Verlag (2), and Chapman & Hall/CRC (2)
- 18. Served as judge of a student paper session at the **2004 International Indian Statistical** Association meeting, Athens, GA.
- 19. Served as panel judge for the ASA DataFest at Arizona State University in 2018 and 2019.

PROFESSIONAL COMMITTEE SERVICE

- 1. Served on numerous management committees at the National Science Foundation, including for Biocomplexity in the Environment, Collaboration in the Mathematical and Geological Sciences, DMS/NIGMS Competition in Mathematical Biology, Focused Research Groups in the Mathematical Sciences, Information Technology Research, and Vertical Integration of Research and Education in the Mathematical Sciences, 2000-2003.
- 2. Served as Chair of **AR/ASA Committee** for bringing the Academic Program Representatives group under the ASA umbrella.
- 3. Served on ASA Task Force on Graduate Research and Education, 2004.

- Served as UGA representative to the Southern Regional Council on Statistics (SR-COS). Attended Business Meetings in 2004 (Richmond, VA), 2005 (Dallas, TX), 2006 (Lexington, KY), 2008 (Columbia, SC), 2009 (Columbia, MO), 2010 (Houston, TX), 2011 (Raleigh, NC).
- 5. Served as ex-officio member of the SPAIG Award Committee, 2006.
- 6. Served on ASA Task Force on Science Policy, 2006, 2007.
- 7. Served on ASA Committee on Publications, 2009-2011.
- 8. Served on an ASA Editorial Search Committee, 2009.
- 9. Served on an ASA Advisory Committee for a publisher partnership, 2010.
- 10. Served on the **Steering Committee** for the conference series Design and Analysis of Experiments, 2012-2024 (as chair October 2017-2019).
- 11. Chaired an **ASA Editorial Search Committee** for an editor of The American Statistician, 2014.
- 12. Member Scientific Committee of the Institute of Data Science and Artificial Intelligence at the University of Navarra, Spain, 2021-current.

CONFERENCE AND INVITED SESSION ORGANIZA-TION

- 1. Organizer (with Abhyuday Mandal) of the international conference **Design and Analysis** of Experiments 2012 (DAE 2012), October 17-20, 2012, Athens, GA.
- 2. Co-Chair (with Sat Gupta and Haimeng Zhang) of AISC 2021 (International Conference on Advances in Interdisciplinary Statistics and Combinatorics), online, October 8-10, 2021.
- 3. Co-Chair (with Sat Gupta and Haimeng Zhang) of AISC 2022 (International Conference on Advances in Interdisciplinary Statistics and Combinatorics), October 7-9, 2022. Greensboro, NC.
- 4. Co-Chair (with Sat Gupta and Haimeng Zhang) of AISC 2024 (International Conference on Advances in Interdisciplinary Statistics and Combinatorics), October 11-13, 2024. Greensboro, NC.
- 5. Organized an invited paper session at the **1995 Eastern Regional IMS/ENAR Meeting**, Birmingham, Alabama (with D. Majumdar).
- 6. Organized and chaired an invited paper session in memory of Oscar Kempthorne at the **2002 Joint Statistical Meetings**, New York, NY.

- 7. Organized an invited paper session at the **2004 Summer Research Conference of the** Southern Regional Council of Statistics, Blacksburg, VA.
- 8. Organized and chaired an invited paper session at the **2004 Joint Statistical Meetings**, Toronto, Canada.
- 9. Organized and chaired the Business Meeting of the Academic Program Representatives group, **2006 Joint Statistical Meetings**, Seattle, WA.
- 10. Served as co-organizer and co-moderator of the **First Statistics Chairs' Workshop**, July 27-28, 2007, Salt Lake City, UT.
- 11. Organized and chaired an invited paper session at the Sixth Workshop on Simulation, June 28 - July 4, 2009, Saint Petersburg, Russia.
- 12. Organized and moderated an invited panel discussion for The American Statistician at the **2009 Joint Statistical Meetings**, August 1-6, 2009, Washington DC.
- Organized and chaired an invited paper session at Design and Analysis of Experiments 2009, October 14-17, 2009, Columbia, MO.
- 14. Organized and moderated an invited panel discussion for The American Statistician at the **2010 Joint Statistical Meetings**, July 31 August 5, 2010, Vancouver, BC, Canada.
- Organized and chaired an invited paper session at Design and Analysis of Experiments 2015 (DAE) 2015, March 4-6, 2015, SAS World Headquarters, Cary, NC.
- 16. Organized and chaired an invited paper session at the **2016 International Conference** on Design of Experiments (ICODOE), May 10-13, 2016, Memphis, TN.
- Co-organized 5 invited paper sessions (with A. Mandal) at the International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), September 30 - October 2, 2016, Greensboro, NC.
- 18. Organized an invited paper session at the **Conference on Experimental Design and Analysis (CEDA)**, December 15-17, 2016, Academia Sinica, Taipei, Taiwan.
- 19. Organized an invited paper session at the **2nd International Conference on Econo**metrics and Statistics (EcoSta 2018), June 19-21, 2018, Hong Kong.
- Co-organized 4 invited paper sessions (with A. Mandal) at the International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), October 6-8, 2018, Greensboro, NC.
- Organized and chaired an invited paper session at Design and Analysis of Experiments 2021 (DAE), October 2021, online.
- 22. Co-organized 4 invited paper sessions (with A. Mandal) at the International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), October 8-10, 2021, online.

- Organized an invited paper session for the 5th International Conference on Econometrics and Statistics (EcoSta 2018), hybrid, Kyoto, Japan, June 4-6, 2022.
- Co-organized 4 invited paper sessions (with A. Mandal and R. Singh) at the International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC), October 7-9, 2022, Greensboro, NC.
- Organized and chaired an invited paper session for the 15th International Conference on Computational and Methodological Statistics (CMStatistics 2022), December 17-19, 2022, King's College, London, UK.
- 26. Organized and chaired an invited paper session for the 16th International Conference on Computational and Methodological Statistics (CMStatistics 2023), December 16-18, 2023, HTW Berlin, University of Applied Sciences, Berlin, Germany.
- 27. Organized an invited paper session for the **ICORS Meets DSSV Conference**, July 29–August 1, 2024, George Mason University, Fairfax, VA.
- Organized an invited paper session for the 18th International Conference on Computational and Methodological Statistics (CMStatistics 2024), December 14-16, 2024, King's College, London, UK.

SERVICE ON CONFERENCE COMMITTEES

- 1. Served on the **Conference Advisory Board** for the Com2MaC 2004 Conference on Association Schemes, Codes, and Designs, July 19-23, 2004, Pohang, South Korea.
- 2. Served on the International Advisory Committee for the International Conference on Design of Experiments: Theory and Applications, May 13-15, 2005, Memphis, TN.
- 3. Served on the International Advisory Committee for the 13th Conference of the Forum for Interdisciplinary Mathematics, September 1-4, 2006, Tomar, Portugal.
- 4. Served on the International Advisory Steering Committee, ISAS Golden Jubilee Conference, Dec 27-30, 2006, Delhi, India.
- 5. Served as Chair of the Program Committee for Design and Analysis of Experiments 2007, November 1-3, 2007, Memphis, TN.
- Served on the Advisory Committee for the International Conference on Design of Experiments, May 10-13, 2011, Memphis, TN.
- Served on the Scientific Advisory Committee for Design and Analysis of Experiments (DAE), Isaac Newton Institute for Mathematical Sciences (INI), Cambridge, UK. The program ran from July 18 - December 21, 2011.

- 8. Served on the International Advisory Committee for the International Conference on Statistics and Informatics in Agricultural Research, December 18-20, 2012, New Delhi, India.
- 9. Served on the Scientific Program Committee for the Seventh Workshop on Simulation, May 21-25, 2013, Rimini, Italy.
- 10. Served on the International Scientific Committee for the 7th Workshop on Statistics, Mathematics, and Computation (WSMC7), May 28-29, 2013, Tomar, Portugal.
- 11. Served on the International Scientific Committee for the 5th International Conference on Risk Analysis (ICRA5), May 30-June 1, 2013, Tomar, Portugal.
- 12. Served on the **Scientific Committee** for DEMA2015 (Designed Experiments: Recent Advances in Methods and Applications), Sydney, Australia, December 14-17, 2015.
- 13. Served on the **Scientific Program Committee** for ICODOE 2016 (International Conference on Design of Experiments), Memphis, TN, May 10-13, 2016.
- 14. Served on the **International Advisory Committee** for ICODOE 2016 (International Conference on Design of Experiments), Memphis, TN, May 10-13, 2016.
- 15. Served on the International Advisory Committee for AISC 2016 (International Conference on Advances in Interdisciplinary Statistics and Combinatorics), Greensboro, NC, September 30-October 2, 2016.
- 16. Served on the Scientific Program Committee for the 2nd International Conference on Econometrics and Statistics, Hong Kong, June 19-21, 2018.
- Served on the International Advisory Committee for AISC 2018 (International Conference on Advances in Interdisciplinary Statistics and Combinatorics), Greensboro, NC, October 6-8, 2018.
- Served on the Scientific Program Committee for ICODOE 2019 (International Conference on Design of Experiments), Memphis, TN, May 20-23, 2019.
- 19. Member of the Scientific Program Committee for EcoSta 2022 (5th International Conference on Econometrics and Statistics), Kyoto, Japan, June 4-6, 2022.
- Member of the Scientific Program Committee for ICODOE 2022 (International Conference on Design of Experiments), Memphis, TN, May 9-12, 2022 – postponed until May 8-11, 2023.
- 21. Member of the **Scientific Committee** for the VI Young Scientist Conference on Design of Experiments and Data Science, University of Navarre, Spain, June 5-7, 2023.
- 22. Member of the **Organizing Committee** for the Georges' STAT DAY 2024, George Washington University, Washington DC, March 22, 2024.
- Member of the Program Committee for the ICORS Meets DSSV Conference, George Mason University, Fairfax, VA, July 29-August 1, 2024.

24. Member of the **Scientific Program Committee** for the 18th International Joint Conference CFE-CMStatistics, King's College, London, UK, December 14-16, 2024.

UNIVERSITY SERVICE

- 1. Service on departmental, college and university committees:
 - (a) At the University of Georgia (1986-88): Library Committee, Committee on Equivalency Exam, Department Brochure/Handbook Committee.
 - (b) At Iowa State University (1988-2000): Advisory Committee on Promotion and Tenure, Examination Committee for Nonthesis M.S. Exam (3, once as chair), Ph.D. Prelim Examination Committee (7, twice as chair), Assistantship Evaluation Committee (2, once as chair), Search Committee for Position in Discrete Mathematics (Mathematics Department), Search Committee for Position in Statistics (5, including as chair for the Laurence H. Baker endowed professorship), Seminar Committee (2, once as chair), Graduate Committee (every year since 1990), Graduate Research Committee (contributing to writing of departmental strategic plan), Curriculum Committee (4), Ad Hoc Committee on Revising Departmental Documents, Focus Groups as part of Departmental Graduate Curriculum Review (2, chairing one of the groups), Faculty Development Committee (LAS College, 92-95).
 - (c) At the University of Georgia (2003-14): Executive Committee for Preparing Departmental Self Study (chair), Search Committee (chair), Foundation Accounts (2), Presidential Graduate Fellows Awards Committee (Graduate School), Research Computing Advisory Committee (OVPR, 2007-2010), Staff Awards Selection Committee (Franklin College), Advisory Committee to the Dean for Hiring a new Associate Dean for Research and Graduate Education (Franklin College).
 - (d) At Arizona State University (2014-2019): SoMSS statistics search committees (6, each time as chair), SoMSS ad hoc by-laws committee, SoMSS graduate committee (4), SoMSS executive committee (3, all as chair), SoMSS program review advisory committee, SoMSS committee to develop a BS program in Data Science, SoMSS Ombuds Committee, University CLAS Dean of Natural Sciences search committee.
 - (e) At University of North Carolina Greensboro (2019-2022): Search committee for 2 positions in Informatics and Analytics (as chair), Committee for Monitoring Progress Towards Tenure/Promotion in Mathematics and Statistics (3), Search Committee for a staff position in Informatics and Analytics (as chair).
 - (f) At George Mason University (2022-present): Executive Steering Committee, Graduate Curriculum Committee, Undergraduate Curriculum Committee, Data Science Committee (Chair), Graduate Recruitment Committee, Mentoring, Open Rank Temp Faculty Search Committee (Chair), Open Rank Temp Tenured/Tenure Track Faculty Search Committee, Ad-hoc Committee for External Review Preparation. School of Computing: Data Science at Mason, Research in the SoC.

MENTORING AND ADVISING

- Postdoc Advisees: Wanchunzi Yu (2015-2017), Rakhi Singh (2020-2022).
- Ph.D. Students: Kui-Jang Wang (1992), Bryan Olin (1993), Win-Chin Lin (1998), James Wright (2002), Lingling Han (2007), Ming-Hung (Jason) Kao (2009), Hsin-Ping Wu (2013), Linwei Hu (2014), Xijue Tan (2015), Wei Zhang (2018), Zhongshen Wang (2018), Abigael Nachtsheim (2020), Yao Shi (2022), Fan Zhang (2024).
- M.S. Students: Jia-Chyi Chiu (1990), Tae-Kyoung Cho (1990), Bryan Olin (1991), Mahmood Ahmad (1992), Jihwan Cho (1992), Sang-Heon Oh (1993), Jianmei Ye (2015), Chao Wang (2016), Qiaohan Guo (2016), Yiqun Dai (2016), Chuntao Chen (2017), Yi Zheng (2017), Irene van Woerden (2017), Guanqi Fang (2019).
- NSF-RTG projects: John Stockton (2016/17), Lauren Crow (2016/17), Abigael Nachtsheim (2017/18).
- Summer research advisor: Zhicui Zhang (2016), Abigael Nachtsheim (2017), Yao Shi (2018), Jiuyun Hu (2019), Fan Zhang (2019).
- REU Research Projects (all joint with Rakhi Singh): Samantha Kilcoyne (2021), Trisha Pramod Nayak (2021), Rhys O'Higgins (2022), Samuel Griffin (2022).
- Served in addition as committee member for 35 MS students and 49 PhD students.

TEACHING EXPERIENCE

- (a) Taught the following courses at George Mason University since 2022:
 - STAT 652, Statistical Inference, 2022, 2023 (2x), 2024, 2025
 - STAT 971, Probability, 2024
- (b) Taught the following courses at University of North Carolina Greensboro 2019-2022:
 - IAF 602, Statistical Methods for Data Analytics, 2019, 2020 (with STA 661), 2021 (with STA 602)
 - $\bullet\,$ STA 661, Advanced Statistics in the Behavioral and Biological Sciences, 2020 (with IAF 602)
 - STA 602, Statistical Methods for Data Analytics, 2021 (with IAF 602)
 - STA 481/675, Design of Experiments, 2020
 - STA 432/632, Introduction to Mathematical Statistics, 2022

- (c) Taught the following courses at Arizona State University 2014-2019:
 - STP 499, Individualized Instruction, 2016
 - STP 501, Theory of Statistics I: Distribution Theory, 2015, 2016, 2017
 - STP 502, Theory of Statistics II: Inference, 2015
 - STP 598, Advanced Design of Experiments, 2018
- (d) Taught the following courses at the University of Georgia 2003-2014:
 - Stat 4/6240, Sampling and Survey Methods, 2007
 - Stat 4/6230, Applied Regression Analysis, 2004, 2008
 - Stat 8200, Design of Experiments for Research Workers, 2003, 2004, 2005, 2009 (twice)
 - Stat 8260, Theory of Linear Models, 2011, 2014
 - Stat 8290, Advances in Experimental Designs, 2006, 2012
- (e) Taught the following courses at Iowa State University 1988-2000:
 - STAT 104, Introduction to Statistics, 1993
 - STAT 201, Applied Regression Analysis for Business, 2000
 - STAT 402, Design and Analysis of Experiments, 1990, 1991, 1992, 1993, 1994
 - STAT 511, Linear Models, 1992, 1996, 1997, 1998
 - STAT 512, Design of Experiments, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999
 - STAT 513, Response Surface Methodology, 1989, 1991
 - STAT 612, Advanced Topics in Design of Experiments, 1990, 1995, 1999

STAT 104 is an introductory statistics course for undergraduate students in agricultural and biological sciences. STAT 201 is a second statistics course for business students. STAT 402 has a mix of undergraduate students (some majoring in statistics) and graduate students (non-majors only). STAT 511, STAT 512 and STAT 513 are taken by graduate students only, most of whom major in statistics. STAT 612 is a Ph.D. level experimental design course.

Taught two sections of STAT 511 in 1996, one of which was video taped for students at General Motors. In 1998 STAT 511 & STAT 512 were video taped for students at General Motors and at the Mayo Clinic; STAT 512 was also video taped in 1999. Received twice a letter of commendation from General Motors for "superior teaching performance", once for Stat 511 (1998) and once for Stat 512 (1998).

- (f) From 1986-1988, taught undergraduate- and graduate/undergraduate-level courses in mathematics and statistics at the University of Illinois at Chicago and the University of Georgia. Also taught the following graduate-level courses at these universities.
 - STAT 820, University of Georgia, Design of Experiments, 1986

- MATH 446, University of Illinois at Chicago, Optimal Design of Experiments, 1987
- STAT 536, University of Illinois at Chicago, Optimal Design of Experiments, part 2, 1994

FUNDED PROPOSALS

- Faculty Research Grant, University of Georgia, 1989. (Declined award because I went on leave).
- Summer Salary Support Grant, Iowa State University, 1989.
- Summer Salary Support Grant, Iowa State University, 1991.
- DEC Workstation, Project Vincent competition, Iowa State University, 1992.
- Foreign Travel Grant, Iowa State University, 1993, for an invited talk at the Mathematisches Forschungsinstitut Oberwolfach, Germany.
- NSF Research Grant, PI, 1995-1998.
- Foreign Travel Grant, Iowa State University, 1996, for an invited visit to the Institute of Statistical Science, Academia Sinica, Taipei, Taiwan. (Visit of 3 weeks during Dec. 96/Jan. 97.)
- Foreign Travel Grant, Iowa State University, 1998, for an invited talk at the Mathematisches Forschungsinstitut Oberwolfach, Germany.
- NSF Research Grant, PI, 1998-2001.
- Foreign Travel Support, University of Georgia, 2004, for an invited talk at mODa 7, Heeze, The Netherlands.
- Foreign Travel Support, University of Georgia, 2005, for an invited talk at Fang65, Hong Kong.
- Foreign Travel Support, University of Georgia, 2006, for an invited talk at the International Conference on Design of Experiments and Its Applications, Tianjin, China.
- Foreign Travel Support, University of Georgia, 2006, for an invitation to the 13th Conference of the Forum for Interdisciplinary Mathematics, Tomar, Portugal.
- NSF Research Grant, PI, 2007-2010.
- Foreign Travel Support, University of Georgia, 2009, for an invited talk at the Sixth St. Petersburg Workshop on Simulation, St. Petersburg, Russia.
- NSF Research Grant, PI, 2010-2013.

- NSF Conference Award, PI, 2012
- NSA Conference Award, PI, 2012
- NSF Research Grant, PI, 2014-2018.
- NSF Research Training Group Grant, co-PI, 2015-2019.
- NSF Research Grant, PI, 2018-2022.
- National Institute of Justice, co-PI, 2019-2020.
- NSF Research Grant, PI, 2022-2025.
