REP. 5161 PROT. 123331 del 20/09/2018

THE DIRECTOR

WITH REFERENCE TO the rules referred to in Article 14 of the present call for application

ORDERS

Art. 1 – Purpose

A procedure of comparative evaluation by qualifications and public discussion is called for the recruitment of 1 researcher with a fixed-term employment contract full-time for the three-year - pursuant to art. 24 paragraph 3 letter b) (senior) of Law no. 240/2010 -. Sector competition reference 06/D4 - Skin, Infectious and Gastrointestinal Diseases, Scientific sector MED/17 - Infectious Diseases.

The job is activated for the needs of research and study of the Department of Medical and Surgical Sciences -DIMEC. Serving primarily at the Department of Medical and Surgical Sciences -DIMEC, Bologna.

The contract shall last three years. An annual gross total amount equal to € 34.898,00. The annual increase in this amount will be calculated according to the existing procedure for non-contracted personnel.

Art. 2 – Activities to be performed

The contract includes 350 hours of supplementary teaching and assistance to students, for each academic year covered by the contract. The contract shall schedule 60 hours of teaching on annual basis.

The researchers will perform medical care services at the hospital facility of POLICINICO UNIVERSITARIO SANT'ORSOLA - U.O. MALATTIE INFETTIVE, in line with the methods defined by the hospital for all contracted university research staff.

In this regard Articles 5 and 6 of Italian Legislative Decree 517/99 and amendments apply, as well as regional laws and local agreements.

The medical activity will be related to the research projects described in this call for applications.

Concerning the provisions of art. 10 regarding fixed term researchers, issued by Rectoral Decree no. 344 of 29/03/2011 and amendments, the researcher's activities must be linked to the development of research project entitled: "The infectious risk management in End Stage Liver Disease".

The project focus: infections represent the leading complication of the end-stage liver disease. Indeed patients with ESLD exhibit an important impairment of immune system, a condition, called cirrhosis-associated immune dysfunction (CAID). Moreover cirrhotic patients have several unique pathophysiological characteristics altering the PK/PD behavior and the in vivo activity of antimicrobial agents, increasing the risk or erratic exposure. Therefore a multifaceted approach is mandatory to face all the management challenges offered by patients with ESLD with infection. The research project is aimed to i) update the knowledge of contemporary epidemiology, ii) develop innovative prognostic tools, iii) test novel therapeutic strategies in term of new drugs and/or delivery strategies, finalized to generate a targeted therapy. The opportunity to deal with a large international network of infectious diseases and hepatologic centers will guarantee the needed sample size to realize the abovementioned goals.

Objective of the research project, will be during the 3 years will be 6 jobs published in peer-reviewed international journals.
