

The neuro-socio-developmental disorders: an integrated approach

DIRECTION

Ilaria Tarricone, Department of Medical and Surgical Sciences, University of Bologna

CO-DIRECTION

Rita di Sarro, AUSL of Bologna

PRESENTATION

The aim of the course is to provide useful skills in assessing individual and environmental vulnerability factors to neuro-socio- development disorders, from birth to early adulthood, also providing elements for their diagnosis and treatment.

The main recipients of the proposed training are therefore all those professionals variously involved in the identification and management of such vulnerabilities in any hospital setting or in the Community Mental Health Services: physicians, psychologists, nurses, educators, psychiatric rehabilitation therapists and other healthcare and psychosocial professionals.

ADMISSION REQUIREMENTS

College or university degree or professional degree obtained under previous legislation (L. 1/2002) as provided in the call for application.

PARTNERSHIP

Mediterranean Maudsley Forum
