PERSONAL INFORMATIONS

Surname and name	Gori Davide
Address	Via Lorenzo Ghiberti n.2, 40128 Bologna (BO), Italy
Phone	3338969412 0512094802
Fax	0512094817
E-mail	dedegori27@gmail.com davide.gori4@unibo.it
Nationality	Italian
Place and birthdate	Bologna, 27/12/1984

WORKING EXPERIENCE

Date	From January 2018 up to now
Name and address of the company / institution	Department of Biomedical and Neuromotor Sciences (DIBINEM), Alma Mater Studiorum University of Bologna (operative site of Via San Giacomo 12, 40126 Bologna)
Role	Post-doc research fellow, L.240 / 2010 (SSD : MED / 42) at the Department of Biomedical and Neuromotor Sciences (DIBINEM), University of Bologna, Section of General and Applied Hygiene and Medical Statistics.

- **Main activities and research areas:**
- Participation as epidemiologist in Work Packages 3 and 4 of the Me.D.All Project. (Mechanisms of Development of Allergy - <http://www.eisbm.org/projects/medall/>), aimed at identifying the mechanisms of the onset of allergy in early childhood until adulthood. The project also aimed at identifying mechanisms to implement prevention, early diagnosis and develop new therapies. PI of the project: prof. Josep Maria Antò - Institut de Salut Global de Barcelona - CREAL (Spain) and prof. Jean Bousquet, Institut de la Santé et de la Recherche Médicale (France). Funding of the project Me.D.All.: 7th Framework Program of the European Union, grant number: 261357.
- Participation as epidemiologist for Work Packages 2 (Respiratory health, Liesbeth Duijts Erasmus MC Manager, University Medical Center Rotterdam (Netherlands) and 3 (Nutrition and physical activity, Leda Chatzi Manager University of Crete UOC) Division of Social Medicine (Greece) of the CHICOS Project: Developing a Child Cohort Research Strategy for Europe (<http://chicosproject.eu/the-project/>), aimed at building a European cohort network to prepare databases and joint health studies for birth cohorts And evaluating existing data from cohorts, registers and databases in order to develop targeted research actions at European level. IP of the project: Prof. Martine Vrijheid, CREAL - Barcelona (Spain) Financing of CHICOS project: 7th Framework Program of the European Union, grant number: 241604.
- Participation as epidemiologist (with the task of collecting, managing and analyzing data collected before the baseline and the follow-up of children aged 8) of the Co.N.ER cohort (Cohort of children born in Emilia-Romagna). This cohort was enrolled at the University Hospital of Bologna, from July 2004 to December 2005 with the aim of studying diseases of the newborn and the infant. PI: Prof. Maria Pia Fantini The funds were obtained from the special program (Special Programs - Art. 12 bis, paragraph 6 of Legislative Decree 299/99 and Supervision of Authorities) funded by the Ministry of Health. The approval for the study was obtained by the ethics committee of the S. Orsola-Malpighi Hospital in April 2004 (52/2004 / U / Tess) with the amendment of the ad hoc extension of the previous CE approval (EM49 / 2012 / U).
- Epidemiologist assignment within the research agreement signed between the ASL of Imola and the University of Bologna (Rep. 106/2017) and signed by the parties on 5 June 2017 entitled: "Progetto Imola in Forma (PIF)" In particular, he is working in activities related to the performance of the BIF (Bimbo In Forma) project with the implementation of an outpatient clinic dedicated to taking over the overweight and obese child at the Local Health Authority of Imola.
- He has collaborated in the drafting of many scientific research projects, has actively participated in the drafting of the project "PRIN" HEWIC, headed by the University of Bologna and presented on 20 December 2015.
- He collaborated in the drafting of the OMNIA-P Project, headed by the University of Bologna and in the framework of the financing programs H-2020 of European Union, a project passed to the first step in December 2014 and subsequently not financed in the second step.
- Data processing of the Co.N.ER cohort and participation in the Me.D.All project for the definition of old and new allergic phenotypes.
- Participation in research activities related to the review of literature in the areas of childhood obesity and more generally nutrition.
- Participation in research activities related to the possible association between volumes of interventions for carcinomas of the gastrointestinal tract and short and long term outcomes.
- Supporting, collecting and processing data for heat and mortality risk in the context of the Bologna AUSL in the period May-September 2012.
- Research activity on bibliometric indicators and definition of research strings for the etiology of certain diseases both in epidemiology and in occupational medicine, and in the clinical and endocrinological fields.

EDUCATION AND TRAINING

Academic titles (degrees, specializations, masters)

April 20, 2018

PhD in General Medical and Services Sciences. Thesis entitled: "The role of Patient reported indicators (PROMs) for healthcare quality promotion: the case study of prostate cancer surgery".

May 19, 2015

Specialty in Hygiene and Preventive Medicine at the Alma Mater Studiorum - University of Bologna, with a score of 110 out of 110 cum laude. Thesis entitled: "Interventions for the prevention of childhood obesity: update of the literature".

October 20th 2009

Degree in Medicine and Surgery, obtained at Alma Mater Studiorum - University of Bologna, with a score of 110 out of 110 cum laude. Thesis entitled: "Influence of smoking on respiratory symptoms in the first years of life. Genome-Environment interactions in an experimental study in a cohort of natives of the province of Bologna".

Other training information

Frequencies abroad:

Research Assistant as head of epidemiologist of the project "Utilization of Prostate Cancer Quality Metrics for Research and Quality Improvement" at the Surgical Health Services Research Unit of the University of Stanford (California, USA). The project was aimed at identifying the best quality measures in the oncology field, in particular those reported by patients, and an analysis of their accuracy. (19/01/2017-19/04/2017) PI: Tina Hernandez-Boussard, Stanford University.

Courses (as student):

Participation in the course "Statistical Methods for the Analysis of Genetic Data", held in Meldola (FC) from 19/05/2014 to 23/05/2014.

Participation in the course "Frontiers of exposure assessment in epidemiology: exposome", held in Fiesole (FI) from 17/06/2013 to 21/06/2013.

Participation in the "24th Summer Course of the European Educational Program in Epidemiology (EEPE)", held in Fiesole (FI) from 27/06/2011 to 17/07/2011.

Participation in the course "Study design and analysis in the genetic epidemiology of complex diseases", held in Fiesole (FI) from 20/06/2011 to 24/06/2011.

Courses (as teacher):

Teaching tutor at the University of Bologna: "Scientific Research Methodology" (1CFU) in the International Degree Course in "Medicine and Surgery", University of Bologna.

Teaching tutor at the University of Bologna: "Epidemiological Methods for Research in the Healthcare Sector" (4CFU) for the Degree Course in Health Care, University of Bologna, Campus of Rimini.

Teaching tutor at the University of Bologna in degree courses of "Environment and Workplace Prevention Techniques", "Physiotherapy" and "Healthcare assistant" with lectures on: general and applied hygiene, Evidence Based Prevention, epidemiological methods for research in healthcare, Epidemiological principles, vaccination and epidemiological strategies for prevention, held by Prof. Maria Pia Fantini

Teaching activities for "Análisis epidemiológico y evaluación de infecciones, with especial atención a las infecciones emergentes de América Latina" as part of the international project "Capacitación Del Personal of the MSD, Para El Fortalecimiento de las redes de salud en el Marco de la política Nacional SAFCI Y the Elaboracion de Carpetas de capacitación en Salud Maternal Neonatal Y Normas Para Redes de Salud - FORES", organized by the CESTAS organization in collaboration with the University of Bologna, which took place from 17/10/2013 to 19/10/2013 in La Paz, Bolivia.

Teaching activities in the context of the International Course of Higher Education in

"Organization and Management of territorial health and social services for Yemenite socio-health managers", lecture on - "Epidemiological analysis and evaluation of the health conditions of the individual local populations" held from 10/07/2013 to 11/07/2013 in Bertinoro.

Teaching activities for the course "Descriptive and etiological epidemiology" in the framework of the II level international master program "Salud Pública, Políticas Sanitarias, Organización de los Servicios y Epidemiología, with énfasis en Salud Materno-Infantil y Enfermedades Emergentes", organized by the CESTAS organization in collaboration with the University of Bologna, held from 28/05/2012 to 01/06/2012 in Santiago de Chile.

PERSONAL SKILLS AND COMPETENCES

LANGUAGES

Mothertongue: Italian

English language knowledge: Excellent

Written: Excellent

Spoken: Excellent

Achievement of the First Certificate of the University of Cambridge in the year 2004.

ORGANIZATIONAL, RELATIONAL, TECHNICAL, MANAGERIAL CAPACITIES AND COMPETENCES

Technical knowledges:

Operating systems: Good

Word processing: Excellent

Electronic sheets: Excellent

Database management: Excellent

Browsing the Internet: Excellent

STATA Statistical Software knowledge: Excellent

Multimedia (sounds, images, video): Good

ECDL: No

ORGANIZATIONAL AND RELATIONAL SKILLS

Excellent propensity for research and teaching activities. High propensity to work in groups and in coordination activities. Excellent capacity in lecturing.
