Citizenship: Italian
Bologna, 40125, Italy

PROFESSIONAL SUMMARY

Ph.D. in Economics with a strong background in Macroeconomics and Econometrics applied to Energy and Climate policies. Currently working on macro-climate models and routines aimed at evaluating the effects of the Physical, Transition and Nature-related Risks in advanced and emerging countries. Co-authored economic outlook reports, organized seminars, produced briefs and delivered presentations. Passionate about working on climate, energy and environmental policies. Pro-active and collaborative, natural leader, exceptional interpersonal skills, easily builds network.

PROFESSIONAL EXPERIENCE

- | | |
|----------------|---|
| 2024 - ongoing | Adjunct Professor at University of Bologna , Spatial Data in Economics (GIS tools laboratory), Graduate level |
| 2023 - ongoing | Specialist at Prometeia , leading European research and consulting firm
Economic Analysis and Forecasting division <ul style="list-style-type: none">- Working on physical risks related to climate change: building a macroeconomic-spatial model to evaluate worldwide physical risks (i.e. heatwaves, flood, etc.) in different climate scenarios and with high granularity (1km x 1km). The project has been selected by major southern European banks to comply to NGFS's guidelines and to meet the ECB climate stress test's requirements. Moreover, Prometeia's offer has been awarded in the global top 3 by Chartis Research (RiskTech Quadrant for physical risk modeling solutions, 2023);- Working on transition risks related to climate change: improving Prometeia's Integrated Assessment Model to better evaluate climate transition risks in a multi-country and multi-sectoral framework; Prometeia's offer on transition risk has been awarded in the global top 3 by Chartis Research (RiskTech Quadrant for transition risk modeling solutions, 2023);- Working on nature-related risks: building routines and indicators on nature-related risks which are based on both spatial, sectoral and ecosystem data, following the guidelines provided by ECB, NGFS and TNFD;- Working on other macro models aimed at producing the Prometeia Economic Forecast Outlook. |
| 2021 - 2023 | Senior Economist at Prometeia , Economic Analysis and Forecasting division |
| 2021 - 2022 | Adjunct Professor at University of Milan , Macroeconomics, Undergraduate level |
