Irene Frageri

April 2024

PERSONAL DETAILS

Nationality: Italian

Contact address: Department of Statistical Sciences, University of Bologna Via Belle Arti 41, Bologna, Italy

Email address: irene.frageri2@unibo.it

Website: https://www.unibo.it/sitoweb/irene.frageri2/cv-en

CURRENT ACADEMIC POSITION

From November 2022

PhD student at the Department of Statistical Sciences "Paolo Fortunati", University of Bologna.

The Phd "Future Earth, societal challenges and climate change" is a trans-disciplinary programme that aims to address the challenges of our society in the threat of climate change.

The position is inserted into the European Project: Population Dynamics under Global Climate Change – POPCLIMA, with principal investigator Raya Muttarak.

Irene's field of research relates to the impacts of climate change on human fertility behaviours. This is both in terms of responses to climate related hazards, and of climate change concerns as a reason for not wanting children in low-fertility countries.

WORKING PAPERS

Frageri, I., Zanasi, F., Luppi, F., Muttarak, R., Rosina, A., "*Are climate change concerns related to fertility intentions and for whom? Evidence from five European countries."*
