

MANUELA SOLLAZZO

Work Address: Cellular Biochemistry Lab, University of Bologna, Dept. FaBiT, Via Selmi 3, 40126 – Bologna (Italy)
E-mail: manuela.sollazzo2@unibo.it

EDUCATION

April 2018

PhD in ‘Cellular and Molecular Biology’, University of Bologna

Thesis Title: ‘The Impact of MYC Modulation on Epithelial Cancer Evolution’ - Supervisor Prof A. Pession, Co-Supervisor Dr D. Grifoni - Conducted at CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna.

March 2014

Master Degree in ‘Health Biology’, University of Bologna

Thesis Title: ‘Analysis of Vascular Mimicry in an Animal Model of Carcinogenesis’ - Supervisor Prof A. Pession, Co-Supervisor Dr D. Grifoni - Conducted at CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna.

December 2011

Bachelor in ‘Biological Sciences’, University of Bologna

Thesis Title: ‘Lipid Assessment in a population of the *Brisighella Heart Study*’ - Supervisor Dr S. Cristina - Conducted at Internal Medicine Lab, Dept. Internal Medicine, University of Bologna.

RESEARCH EXPERIENCE

Oct 2018 – Sept 2019

Post-doctoral Fellow, Cell Biochemistry Lab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof AM Porcelli. Mitochondrial Bioenergetic Reprogramming in ovarian carcinomas.

May 2018 - Sept 2018

Post-doctoral Training, Cell Biochemistry Lab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof AM Porcelli. Mitochondrial Bioenergetic Reprogramming in ovarian carcinomas.

Nov 2017 - Apr 2018

Research Collaborator, CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof A. Pession, Supervisor: Dr D. Grifoni. Modulation of Myc expression during tumourigenesis. Role of cancer-associated stroma in cancer evolution.

Nov 2014 - Oct 2017

PhD Fellow, CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof A. Pession, Supervisor: Dr D. Grifoni. Strategies of oxygen supply in cancer.

Apr 2014 - Oct 2014

Graduate Student, CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof A. Pession, Supervisor: Dr D. Grifoni.

Jan 2013 - Mar 2014

Undergraduate Student, CanceREvolutionLab, Dept. of Pharmacy and Biotechnology, University of Bologna, Via Selmi 3, 40126 Bologna (IT). Tutor: Prof A. Pession, Supervisor: Dr D. Grifoni.

Mar 2008 - Mar 2009

Undergraduate Student, Internal Medicine Lab (Prof Borghi), Dept. of Internal Medicine, University of Bologna.

OTHER SCIENTIFIC EXPERIENCES

AY 2018 - 2019

Teaching Tutor for 'Biochemistry of cellular signaling with laboratory' course (72568 - Prof M. Rugolo), and 'Biochemistry of complex cell systems and analysis of protein networks with laboratory' course (87604 - Module 2 - Prof G. Farruggia).

AY 2016 - 2017

Board Member of 'General Pathology' course (00768 - Module 2 - Dr D. Grifoni), Health Biology Master degree, University of Bologna.

AY 2014 - 2018

Supervisor of students for thesis preparation in 'Molecular and Cellular Biology' and 'Health Biology' Master degrees.

Sept 2016

Co-organiser of the 'Italian *Drosophila* Research Conference 2016' (IDRC 2016), Bologna, Sept 14-16.

TECHNICAL SKILLS

***Drosophila* Genetics:** crosses and selection, binary and inducible systems, clonal analysis;

Molecular Biology: DNA, RNA and protein extraction from cells and tissues, PCR, qRT-PCR, WB;

Cell Biology: organ and tissue dissection from fly larvae and adults, drug screening, IF and IHC techniques, eukaryotic cell cultures, viability and colony assays;

Imaging: wide-field fluorescence microscopy, image analysis and dedicated software.
