

1995: Laurea Degree in Electronic Engineering at the University of Bologna. Subject of the Laurea dissertation: Noise Barrier Measurement by means of MLS methods. This project has been co-financed by the European Union (*ADRIENNE project, Measurement and Testing programme*). *The new European Noise Barrier measurement normative EN-1793 is mainly based on the work developed in this dissertation.*

1999: Ph.D at the University of Bologna, DIENCA.

2000-2004 : Postdoctoral researcher at the University of Bologna, DIENCA.

2006.. : Assistant Professor at the University of Bologna, DIENCA.

Main interests: Measurement of the acoustical properties of materials, digital signal processing, active noise control applied to HVAC, scientific software development, hardware and software design and building of measuring instruments.

Knowledge transfer:

P.Guidorzi – Patent (as “inventor”, registration nr. 102017000066160) in collaboration with ALMA MATER STUDIORUM - UNIVERSITA' DI BOLOGNA. “Method for calculating a position and eventual mapping of a space-related variable by using acoustic signals and corresponding device for implementing the method”. Registered 14 june 2017.

Extension to international patent nr. PCT/EP2018/065453, registered 12 june 2018.

The patent allows to measure several parameters in the three-dimensional space and has several fields of application: for example acoustics, archaeology, thermotechnics.

Teaching activities:

- Lecturer of *Introduction to Signal Theory* seminar at the University of Bologna in the context of the Applied Acoustics course. Academic Year 1998/1999.

- Lecturer of *Signal Theory and Noise Control* seminar at the University of Modena in the context of the Mechanics applied to Machines course. Academic Year 1998/1999.

- Lecturer at the University of Modena for the *Mechanics applied to Machines* course. 1999/2000.
- Lecturer at the University of Bologna for the *Technical Physics* course. Academic Year 2000/2002.
- Speaker of a short-course (organized by University of Bologna in partnership with University of Leuven) titled *Dynamic System identification*, concerning active noise control. Bologna, May 2002.
- Lecturer at the University of Bologna for the *Applied Acoustics and Lighting Technique* and *Environmental Control Technique* courses. Academic Years 2002/2003 and 2003/2004.
- Full member dell'AES (Audio Engineering Society) dal 2002. Peer reviewer for JAES.
- Teacher of *Applied Acoustics and Lighting Technique*, Academical years 2006/2007 and 2007/2008, *at the University of Bologna*.
- Teacher of *Environmental Control Technique*, Academical year 2008/2009, at the University of Bologna.
- Teacher of *Environmental Technical Physics* at the University of Bologna since Academical year 2008/2009.
- Teacher of *Lighting Technique and Acoustics* at the University of Bologna (Cesena campus), year 2016/2017.
- Member of organizing committee of 38' AIA congress (Italian Acoustical Association), 2011.
- Member of *QUIESST European Project and CIRI, Inter-departmental Center for Industrial Research "Buildings and Constructions"*, since 2010.
- Member of organizing committee of 8th International Symposium on Temporal Design – Bologna 14-15 September 2017
- Lecturer and scientific board member of the *ARDUINO ONE DAY WORKSHOP* - 30 May 2017. “*A low-cost help for researchers and students, starting from scratch up to practical examples using sensors and graphic displays*” Organized by iSCAPE (Improving the Smart Control of Air Pollution in Europe). In collaboration with the LIVING LAB TERRACINI IN TRANSIZIONE. Tuesday 30 June 2017 at Engineering Faculty, via del Lazzaretto 15, Bologna.
